walling built better

## Twenty years later, there's nothing better

147 Liverpool Road, Burwood NSW

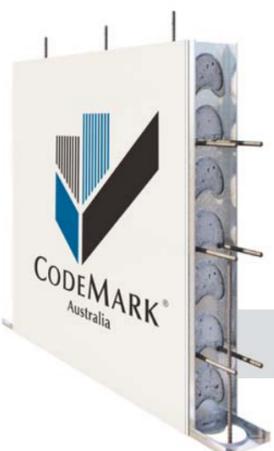

### Our customer says:

#### Its certification is our assurance

I have been designing with AFS walls for over 20 years and have been happy with the outcome. We have confidence in the afs logicwall® system and we get good support from the staff and technical directors.

AFS Logicwall® is fully certified for compliance with the regulatory standards for fire resistance, acoustic and thermal insulation demands. And the various profile sizes make it easy to meet the architectural requirements.

MARK BOUDIB, DIRECTOR, UNITED CONSULTING ENGINEERS
