

Aluminium Honeycomb Panels for Architectural Wall Cladding

larcore®
Fire Class Architectural
NON-COMBUSTIBLE - AS 1530.1

Composition

Through a proprietary continuous manufacturing process, **Alucoil®** manufactures its structural aluminum honeycomb panel **larcore®** to fit perfectly in numerous sectors such as architectural, marine, railway and industrial applications. It is an extremely lightweight and rigid panel which is fire proof, non-toxic, recyclable, insulating, and energy efficient.

Achieved through an intensive R&D development, **larcore®** is the perfect panel for large modulation projects with a restricted supports number due to specific structural conditions. All these **larcore®** features are completed by the possibility of choosing among an infinite range of finishes.

Panel features

Total thickness "b"	6 [mm]
Metal thickness "e ₁ "	0,7 [mm]
Metal thickness "e ₂ "	0,5 [mm]
Alloy	5005 EN 573-3
Panel weight	4,19 [kg/m ²]
Moment of inertia "I"	0,85 ^(*) [cm ⁴ /m]
Rigidity "EI"	5967 ^(*) [kNcm ² /m]
Section modulus "W"	2,53 ^(*) [cm ³ /m]

Sound reduction "R _w "	18,85 ^(**) [dB]
Acoustic isolation "R _A "	19,54 ^(**) [dBA]
Thermal resistance "R"	0,0067 ^(**) [m ² K/W]
Standard width	1000-1250-1500-2000 [mm]
Min / max length	2000/14000 [mm]
Cell size "C"	1/4" / 6,35mm
Thickness foil	50 [μ]

(*) Estimated or theoretical value measured in the transversal axis while lab results arrive
(**) Estimated or theoretical value while lab results arrive

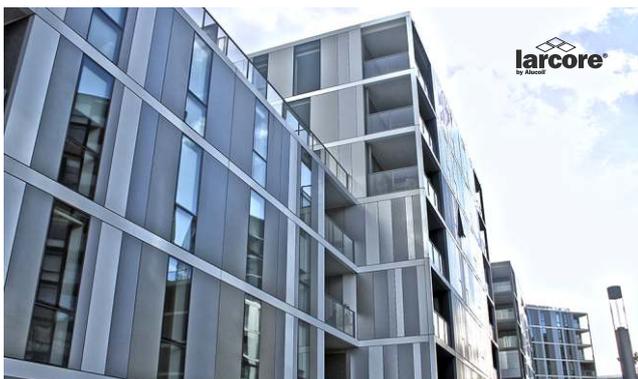

Core characteristics

Aluminium alloy	3003 EN 573-3
Compression resistance	2,20 [MPa]
Core density	56 [kg/m ³]
Protective primer	OK

Finishes

Coated surface	a) PVdF 70% kynar 500 2 layers with PRIMER COASTAL 31μ b) PVdF 70% kynar 500 3 layers 37μ
----------------	---

- Extended technical data sheet under request -

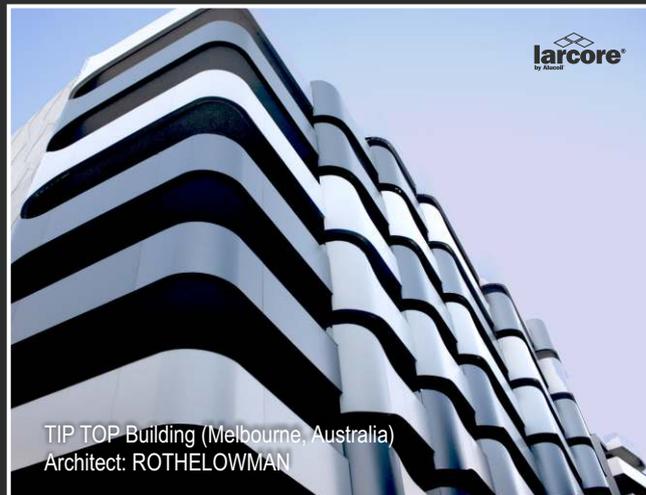

Toorak Park (Armadale, Australia)
Architect: Denton Corker Marshall

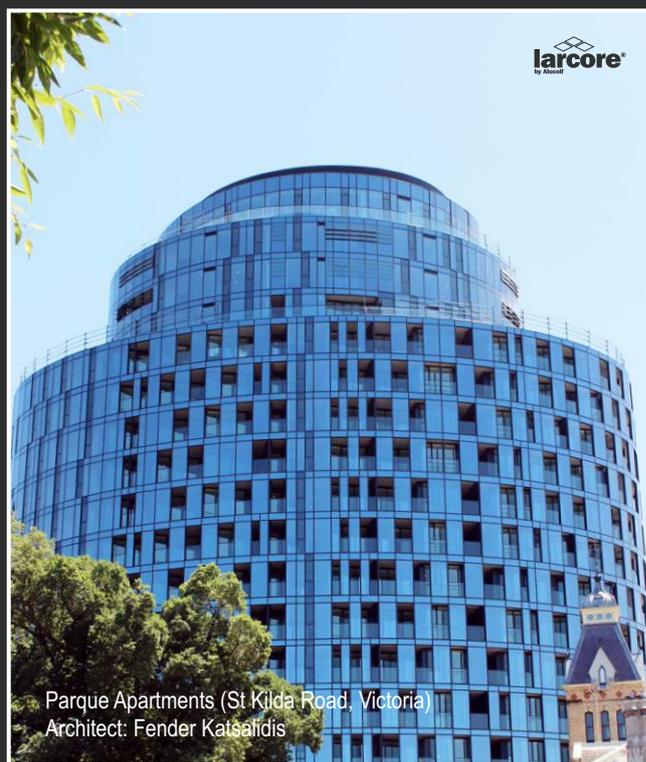

larcore® for use on outdoor façades must be installed with the **HideTech**® **Plus** system certified with ETE / ETA (double edging and perimeter riveting) or with system for watertight panel solution.

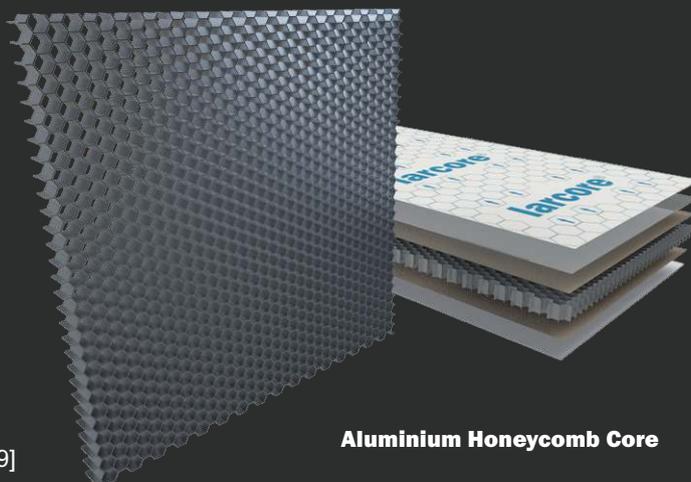

BBVA BANK Headquarters (Madrid, Spain)
Architect: Herzog & de Meuron

TIP TOP Building (Melbourne, Australia)
Architect: ROTHELOWMAN

Parque Apartments (St Kilda Road, Victoria)
Architect: Fender Katsalidis

Aluminium Honeycomb Core

Fire class architectural

AUSTRALIA NON-COMBUSTIBLE [AS/NZS 1530.1-1999]

EUROPE [EN 13501-1:2007] **A2-s1,d0**

FRANCE [NF P 92501] **M0** - [NF F 16-101] **F1**

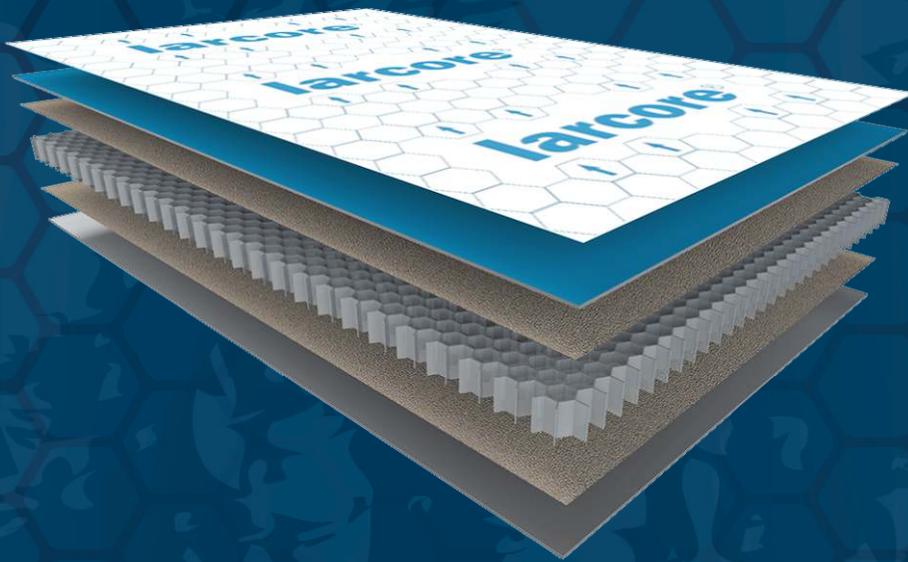

CANADA ULC S135

USA [ASTM E84] Flame-Spread Index: 0 - Smoke-Developed Index: 0

HideTech® & **HideTech**® **PLUS** system developed by **Alucoil**® is the perfect complement for all kind of projects, providing every element required for an installation with **Alucoil**® guarantee and supporting specific loads and requirements for each case.
