# Acoustic VISION PANELS

Our Acoustic Vision Panels are designed for commercial spaces, offering both visibility and noise control. They're easy to install, thanks to a pre-glazing design that eliminates traditional glazing hassles. Meeting safety standards, they provide natural light and come in various sizes for solid or hollow doors. Custom options are available to meet specific acoustic and aesthetic needs.

## KEY FEATURES OF CONTROLLAVIEW VISION PANELS:

- » Fully assembled pre glazed panels
- » Snap together Installation into door with no fixings required
- » Suits door thicknesses 32 to 55mm
- » Glazed to Australian Standards
- » Custom Sizes and colours

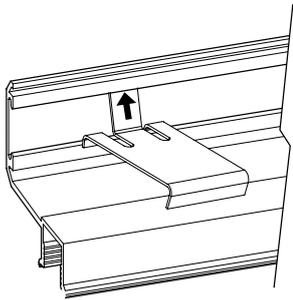

Product Code	RW Value*	Door Thickness	Colour
VPAC39	39	32-55mm	Clear Anodised/Powdercoated
VPAC40	40	32-55mm	Clear Anodised/Powdercoated
VPAC41	41	32-55mm	Clear Anodised/Powdercoated
VPAC44	44	32-55mm	Clear Anodised/Powdercoated

\*RW Values are specific to the glass component

## Installation Instructions

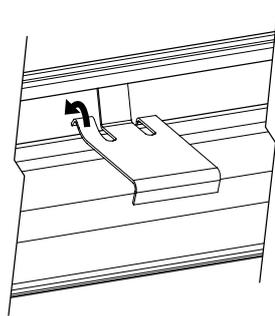

### Step 1

Insert main centre leg into upper channel.

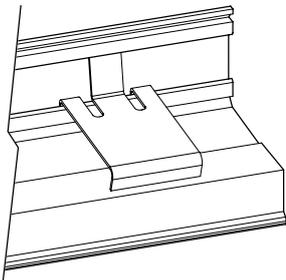

### Step 2

Insert one small leg down into lower channel.

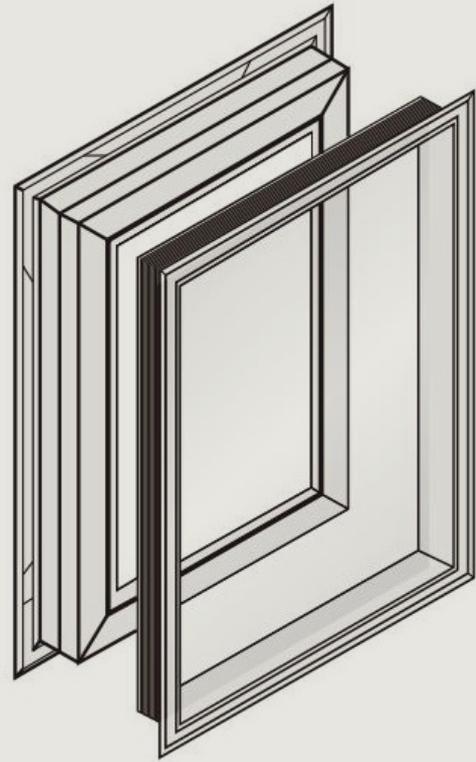

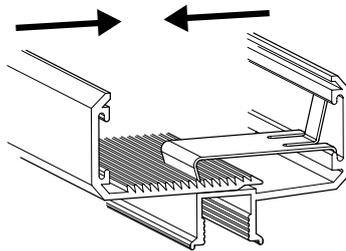

### Step 3

Lift and insert second small leg down into lower channel.

### Step 4

Place front frame into opening and press back frame into position from opposite side of the door.

**Note:** To assist with shock absorption it is recommended adhesive sealant be applied between vision panel and door surface on installation.

**Note:** Install the vision panel with the trim side oriented towards the closing side of the door.
