

Introducing new Thermonet<sup>®</sup>, now with LayFlat Technology, super high grab self adhesive mesh and our original TwistedTwin conductor cable.

- ✓ Same unique TwistedTwin cable
- ✓ Low profile cold tail connection
- ✓ Same Lifetime Warranty
- ✓ **NEW** high grab self adhesive mesh
- ✓ **NEW** easier installation
- ✓ Made in our factory in Germany

**PRIMARY HEATING 150W/m<sup>2</sup>**

Thermonet<sup>®</sup> EZ 150W/m<sup>2</sup> now features a self adhesive mesh for even easier installation onto a variety of substrates.

Thermonet<sup>®</sup> EZ 150W/m<sup>2</sup> can be used as a primary heat source.

We recommend that you install Thermonet<sup>®</sup> 150W/m<sup>2</sup>, with at least 80% coverage, to ensure an adequate primary heat source in a well insulated environment.

**WHAT'S IN THE BOX?**

- Thermonet<sup>®</sup> underfloor heating mat
- Factory test certificate
- Installation guide
- Thermostat (if purchased)
- Conduit kit

**ENHANCE EVERY PROJECT**

Enhance your project with Thermonet<sup>®</sup> electric underfloor heating. The Thermonet<sup>®</sup> feeling brings you the ultimate in comfort, luxury and after sales backup.

HEATING PERFORMANCE

Thermonet® Electric Underfloor Heating is one of the most efficient methods of heating available.

Depending on individual requirements and building construction, Thermonet® can be installed as the primary heat source in a room. It can also be used as supplementary heating or simply just to take the chill off your floor.

MADE IN GERMANY

We make every Thermonet® mat in our German manufacturing plant and have full control over the quality of each individual mat.

Stringent quality control tests are carried out throughout the manufacturing process to ensure each and every Thermonet® mat is finished to the highest possible standards.

Every Thermonet® underfloor heating mat is tested in excess of 2500V to ensure total safety and our Lifetime Warranty gives you full satisfaction and peace of mind.

Primary heat source

NEW Thermonet 150W/m<sup>2</sup>

STOCK NO	SIZE (M)	AREA (M2)	OUTPUT (W)
111502	2.0 x 0.5	1.0	150
111503	3.0 x 0.5	1.5	225
111504	4.0 x 0.5	2.0	300
111505	5.0 x 0.5	2.5	375
111506	6.0 x 0.5	3.0	450
111507	7.0 x 0.5	3.5	525
111508	8.0 x 0.5	4.0	600

111532	32 x 0.5	16.0	2400

Technical Data

Width	500mm
Heated width	430mm
Max. thickness	3.5mm
Max. temperature*	29°C
Cable fixing	Tape
Adhesive mesh	Yes

\*Regulated by floor sensing thermostat

Truly unique TwistedTwin conductor cable...

Thermonet are the only underfloor heating mats in Australia to feature our unique TwistedTwin conductors. Most cables on the market have a dual conductor but as you'd expect, Thermonet has that little bit extra.

Our conductors are twisted together which eliminates electromagnetic field (EMF) and neutralises the expansion and contraction of the cable along it's entire length. This extra process results in a more robust, workable, and longer lasting cable. We're so confident in the quality of our products that we cover Thermonet and Vario with a unique Lifetime Warranty for complete peace of mind.

Use with different finishes and substrates...

You can install underfloor heating over timber or concrete substrates under a wide range of finishes including tiles, wood, carpet or vinyl. Always check suitability with your flooring manufacturer. Install a 10mm layer of self levelling compound when using floor finishes other than tiles.
