EVERYTHING WE DO *is in pursuit of* THE PERFECT BRICK

Our tradition, experience and reliability has made Bowral Bricks the first choice for architects, builders, developers and home buyers. Our continued commitment to quality ensures Bowral dry pressed bricks will remain the benchmark for excellence for many years to come.

BOWRAL DRY PRESSED BRICKS

Bowral dry pressed bricks are the premium product for your building project. Proven in tough Australian conditions for more than a century, dry pressed bricks are renowned for their long lasting quality.

Bowral dry pressed bricks and pavers are made to last using time-honoured techniques and modern technology. Choose the Bowral Bricks range for their unsurpassed quality that only one of Australia's most experienced brick makers can offer.

UNIQUE COLOURS *for AUTHENTIC APPEAL*

Earthy terracotta tones. Creamy browns and beiges. Subtle golden shades. With such an extensive colour range available, Bowral Bricks are guaranteed to add a beautiful finish to your building project.

The unique colour variations in each delivery of Bowral Bricks also ensures the authentic appeal that comes only with traditional manufacturing techniques.

A REPUTATION FOR EXCELLENCE, *a superior building product.*

TRADITION OF TIMELESS QUALITY

Bowral dry pressed bricks have been delivering timeless style and quality throughout the years, first producing this ever-popular range in the early 1900's. Many decades later, Bowral Bricks continues to manufacture dry pressed bricks using traditional craftsmanship techniques at the Bowral manufacturing facility.

THE PREMIUM BUILDING PRODUCT

Bowral Bricks selects the finest quality clays and shales to create a clay mix, which is compacted into individual moulds at high pressure to produce solid and dimensionally accurate dry pressed bricks. With their solid

appearance and square arris, Bowral dry pressed bricks are suitable for face work, rendering, painting, bagging and are perfect for chasing requirements.

The nature of manufacturing provides them with extremely low moisture expansion, therefore offering a very stable building material. Modern technology helps meet nationwide demand for dry pressed bricks designed for today's residential and commercial building applications.

SHAPES TO SUIT YOUR BUILDING NEEDS

Bowral dry pressed bricks are available in standard shapes as well as sculptured custom shapes, allowing you to add individuality to both the interior and exterior of your development. Endless design patterns and custom

colours make Bowral dry pressed shapes the perfect solution to versatile building design.

Please refer to our Bowral Special Shapes brochure for further details.

BUILD ON OUR AWARD WINNING REPUTATION FOR EXCELLENCE

Bowral Bricks brings you an unrivalled investment in the brick making technology of tomorrow. Our continued commitment to quality ensures Bowral Bricks will remain the benchmark for excellence for many years to come.

Winning the prestigious John Horbury Hunt Award for excellence in brickwork many times, emphasises the high standard and quality that is found when using Bowral dry pressed bricks.

DESIGNED TO LAST

VERSATILE IN DESIGN, DURABILITY TO LAST A LIFETIME, THE HIGHEST THERMAL COMFORT AND WITH LOW MAINTENANCE UPKEEP, CLAY BRICKS AND PAVERS TICK ALL THE BOXES FOR HOMES AND PROJECTS WITH VALUE AND SUSTAINABILITY IN MIND.

LOW MAINTENANCE

No need to paint or other treatments to maintain their aesthetics and durability. They are strong, reliable and relatively maintenance free.

AFFORDABLE

Cost effective building product materials that increase the value of your investment or project from day one, for generations to come.

ENERGY EFFICIENT

Combined with intelligent passive building design elements, clay bricks can help moderate building temperatures and reduce energy consumption.

STRENGTH AND SAFETY

Clay products are stronger than concrete and other light weight materials and also provide a safer and more secure home from the outside environment.

NATURALLY SUSTAINABLE

Clay is a natural resource which has been used for centuries because it retains its colour forever as well as its durability. Architects, engineers and specifiers continue to appreciate the advantages of using clay products.

Bowral Bricks are backed by an exclusive Brickworks 100 year warranty.

BOWRAL DRY PRESSED BRICK COLLECTION

BOWRAL76

These distinctive dry pressed bricks made at our Bowral plant have been used in many of Australia's most admired and historic buildings. With their unique granular patina and tactile aesthetic, Bowral bricks are highly prized by customers, architects and designers alike, and set the standard for design and integrity. Their sharp edges and inherent character combine with the distinctive Bowral clay colours to create what can only be a Bowral Brick. The extensive colour palette covers the spectrum from the pale and soft Chillingham white and cool silvers through the palette of golds, orange and red hues to the highly sought after Granite and Bowral Blue.

FEATURED: SIMMENTAL SILVER AND EMBASSY RED

BOWRAL300

For added elegance and simplicity, the Bowral300 range provides an even longer version of the Bowral50, taking the effect to the next level. These bricks are rare and intended to make a statement about quality and design for superior projects that occupy a class of their own.

FEATURED: CHILLINGHAM WHITE AND MURRAY GREY

BOWRAL50

The sleek, low profile Bowral50 (a 50mm high brick) is our response to contemporary design trends and offers architects and builders a greater range of versatility. The slimline profile of Bowral 50 creates an elongated linear form in contemporary brickwork, appearing to lengthen the wall, adding sophistication and elegance to the design.

FEATURED: BOWRAL BLUE AND HEREFORD BRONZE

BOWRAL SATIN

Bowral Satin is an extraordinary collection, each brick the result of a grinding and polishing process that exposes the true depth of clay colour in the brick. With their super smooth and high sheen polished surface they're guaranteed to captivate the most style conscious designer. Bowral Satin is available in all sizes and in the full array of Bowral colours.

BOWRAL SHAPES

Bowral Shapes are used in conjunction with standard bricks, adding distinctive architectural features to any project. Unusual and stylish, they evoke memories of an earlier age when the artisan bricklayer was able to use distinctive 'shapes' in their work in buildings that today are considered heritage and of great value.

MORTEX

MORTEX is a factory manufactured, quality assured premixed M4 rated mortar solution. Its consistency can save labour time, increase efficiency, remove the need for on site blending, and it is compliant with AS3700:2018. MORTEX takes the guess work out of mortar blending and reduces the potential for under strength, non compliant mortar use.

This can ultimately reduce potential liabilities, saving money and time on rectifications. With the adoption of ISO9001:2008 principles, the mortar constituents are accurately measured and blended in a controlled environment to ensure consistent, homogeneous mortar is produced on-site.

MORTAR COLOURS

White mortar is currently the most popular colour. This is made by mixing light coloured cement and white sand and results in a traditional brick and mortar look. Mortar can be coloured by adding powdered or liquid pigments to the mortar as it is being mixed by the bricklayer. It can also be tinted to

match the brick colour, giving a very even wall colour. Please confirm with your bricklayer what their mortar colouring offering is before making your final decision.

For more information on MORTEX, please visit: australbricks.com.au/NSW/product/Mortex

RECOMMENDED MORTAR FINISHES

The recommended mortar finishes for Bowral Bricks are Ironed or Rolled joints as they are sometimes referred to, and Flush joints. Ironed joints create a subtle shadow line, accentuating the horizontal lines of the brickwork. A flush joint doesn't allow for shadow lines to form at all, giving the wall a flatter, more unified look. Using a mortar to colour match the brick will enhance this look even further.

Ironed

Flush

EXP = Exposure grade

Suitable for use in external walls exposed to aggressive environments, such as; areas subjected to salts in the soil, adjacent material or ground water, in coastal areas exposed to attack from windborne salt spray, or retaining walls subjected to fertilisers and ground salts. All Bowral bricks and pavers achieve Exposure Grade classification.

Slip resistance

The Wet Pendulum Slip Test, outlined in AS 4586, classifies the slip rating of new surface materials that are prone to water exposure. The material is tested using a Pendulum Friction Tester and scored a British Pendulum Number (BPN). The slip rating is based on a minimum of five (5) tests, in which the average of the last three (3) BPN score is used. This average score is referred to as the Slip Resistance Value (SRV) and is classified from P0 (Least resistant) to P5 (Most resistant). All Bowral pavers have achieved a P5 rating.

STYLE INSPIRATION

BOWRAL BRICKS HAVE THE INSPIRATION
AND EXPERTISE YOU NEED

With our comprehensive series of colour and style palettes, skillfully curated from the huge range of Brickworks building materials available, you can select a thoughtful and stylish scheme for any house, whether it's cutting edge contemporary or more traditionally influenced.

Just as important, clay is a natural resource which has been used for centuries because it retains its colour forever as well as its durability.

Our expert design consultants can talk you through colour and style swatches in a friendly one-to-one session, helping you pick a scheme you love for your vision.

BOOK YOUR ONE-ON-ONE COLOUR CONSULTATION TODAY

BEAUTIFUL PRODUCTS *that last forever*

Product Bowral96, Chillingham White • Architecte Marc Goussin
Photographer Lisbeth Grossman

Our genuine building products create the most beautiful and sustainable environments and places in Australia.

Brickworks Building Products is one of Australia's largest and most diverse building material producers and providers. With our heritage as one of Australia's founding brick businesses many generations ago, we hold the values of family, community, sustainability, innovation and quality at our core.

We know our quality products last forever, which is why some of our products come with a 100 year guarantee.

Under the Brickworks Building Products umbrella are some of Australia's best known

building materials brands. Our products include bricks, pavers, masonry blocks, retaining wall systems, precast concrete panels, solar, concrete and terracotta roof tiles, timber products, terracotta façades and specialised building systems.

With a broad product portfolio of leading products from Australia and around the world – available right across the country – Brickworks Building Products pride ourselves on our commitment to product, service excellence and our leadership position.
