

DH40X Adjustable Hinge

Architectural Hinge

The DH40X adjustable architectural hinge offers value for money, style and performance with no other hinge allowing for adjustment once fitted.

Features

- Bi-directional fixing system provides vastly superior load carrying capabilities
- The DH40X allows for doors to be adjusted vertically up to 6mm and horizontally by up to 6mm.
- Maximum capacity with 3 hinges, doors up to 100kg & 1.2m wide
- Neutral Spray tested to 1000 hours
- Suits trends of larger doors with increased leaf thickness, stronger bushes and larger fixing screws
- Suitable for all light and heavy duty applications
- Universal fitting principals - Suitable for any installation where an interfold or butt style hinge would normally be used
- Hinges are surface mounted and require no specialised machining
- Bi-directional fixing system provides vastly superior load carrying capabilities
