DESIGN DETAILS

Download

Compact in design, the Smokehalt - V overhead coiling vertical smoke curtain is designed to be concealed in the ceiling cavity.

The system is supplied with a bottom bar cover as standard, maximising value for money and aesthetic finish.

The system can also be installed and left fully exposed, negating the need for the concealed bottom bar cover.

Of course, the system is power fail safe requiring no back up power supplies to function when required.

Other accessories include;

- Battery backup to reduce nuisance deploys
- Linear obstruction sensors
- Radial obstruction sensors
- Powder coated finish
- Curtain mounted rewind switches
- Fabric applied signage:
Eg; green running man, arrows, text etc.
