

# 5400 Series

Door furniture

The 5400 Series narrow stile furniture is designed for use in commercial applications, including exterior and interior doors for retail/shop front, educational, governmental, medical and public buildings. The narrow plate is ideal for use on narrow timber or aluminium stiles.

With a range of modern and contemporary lever designs, the 5400 Series will complement any décor. The handing mechanism of this series allows the furniture to be handed on site, by simply rotating the handle in the preferred direction of use prior to installing on the door .

## Features

- Constructed of commercial grade quality components including forged brass handles and extruded brass plates
- Heavy duty compression spring provides a smooth, positive return action of the lever and eliminates droop, extending the life of the product
- Symmetrically designed levers are able to be handed on site within seconds, with a simple 180° rotation of the lever in the preferred direction of use prior to installation.
- Designed for use with Legge 995 narrow stile mortice locks, the 5400 Series can also be supplied to suit Legge 990MF mortice locks
