## The Future of Table Tops

Change is inevitable as worldwide demand for product innovation, whilst optimising resources, continues at a relentless pace. Ultra Design Composites are supported by 160 years of experience in timber and building products, providing valuable experience and expertise to evaluate industry and environmental changes, and recognise significant turning points. This era of composites is one such turning point for the timber and building industry as well as the consumer.

New technologies have continued to improve across all frontiers, enabling composite products to be designed to not only match the manufacturing requirements but to also better suit the end use. The future thinking in composites has immediate cost and environmental benefits now and will be truly significant for future generations.

urbantable\_tops™ are a contemporary composite of sustainably resourced wood fibres and recycled plastics (polymer). Engineered and manufactured in Germany, they are environmentally friendly with an outstanding life cycle and warranty.

A leader for outdoor surfaces, the urbantable\_tops material is exceptionally resistant to saltwater and fungi. With exceptional resistance to oils and UV exposure, urbantable\_tops' outstanding performance is matched with a 2 year warranty.

Offering exceptional benefits over traditional materials, urbantable\_tops will not rot, crack, splinter or rust, and will require no sanding, painting or oiling. Termite resistant and exceptionally durable, urbantable\_tops are a true low maintenance product.

urbantable\_tops are manufactured for indoor and outdoor use according to a patented process and owe their unique properties to their highly compressed material core. This makes them long-lasting, hard-wearing and absolutely weatherproof - making them particularly well suited for professional restaurant use.

The complete urbantable\_tops range has 100+ decors in numerous styles, available in seven table top shapes and a variety of sizes. Individualised table top decors are also available allowing you to have a custom table top made using your logo or imagery.

The unique attributes of urbantable\_tops have seen this product used nationally in all sectors due to the smooth, closed surface that is homogeneously pressed onto the wood material making it easy to clean and satisfying the hygiene requirements of the professional catering industry.

## The Bosco Collection

---

Take a tour of international interior design culture: clear Nordic, romantic Mediterranean or exotic extravagance – the Bosco collection opens up a world of warm wood tones and stylish surfaces. The palette ranges from light maple and copper beech to dark wenge, from wood grain and plaited and woven structures to coffee bean decor. A dynamic and pleasantly natural collection.

## The Punto Collection

---

If you love the interplay of form and colour, Punto is just your style. Cool, fiery or in subdued pastels, the decors of Punto exhibit a rich palette of styles. Floral patterns adorn the table tops with blooming fantasies: romantically delicate or in high-contrast retro style. Whatever your preference, this richly varied collection has something for you.

## The Arte Collection

---

The Arte collection graces your tables with beautiful designs. Harmonic, atmospheric colour compositions recall water colour and batik techniques with delicate lines and shapes accentuating larger elements. Taking creative table design to a new level: individuality and artistic sensibilities shine through in this collection. Decors as abstract art – that is Arte.

## The Classic Collection

---

The tavola table top, with its stylish bordering began with the Classic collection. Muted, restrained colours in warm to cool tones, classic decors in stone or wood styles and a high contrast border – these are the elements of the Classic series. Create a Vienna coffee house atmosphere or the ambience of an Italian gelateria with these elegant decors.

# urbantable tops

**urbantable\_tops** are easy to care for, robust and long-lasting. We offer here some helpful information to ensure that you will enjoy your table tops for many years to come.

## Heating by the sun

urbantable\_tops that are exposed to significant amounts of sunlight can temporarily deform into a concave shape. The corners bend upward and the middle downward.

As a preventive measure to counteract this change in shape, the table tops have been produced with a slightly convex shape. When the table tops are used, this deformation recedes such that it is hardly noticeable at all.

For locations exposed to extensive sunlight, we recommend choosing lighter decors or our Classic design with dark border but with a matching light decor in the centre of the table top. Dark table tops with larger square and rectangular dimensions heat up so much under heavy sunlight that the resulting deformation is irreparable. These table tops should only be used in shaded areas. Such decors are marked with <sup>2)</sup>. If you nevertheless wish to use decors marked in this way in unshaded areas, please consult your customer advisor. We will offer you a custom solution for this purpose!

In other words, urbantable\_tops are never quite perfectly flat. Due to the pre-stressing described above, their suitability or grouping together into larger table surfaces is limited.

## Special Decors

Decors produced via special printing processes have properties that live up to our standards. However, they should not be subjected to weather influences year-round. Decors with special printing processes are marked with <sup>4)</sup>.

## Durability

The durability of our table tops satisfies the requirements of DIN EN 438 for kitchen work surfaces. However, they are not infinitely scratch-proof. Hard, rough, sharp-edged or mineral based objects, such as metal, stoneware or unglazed porcelain can cause irreparable scratches and scrapes on the table tops. However, this does not impair their usability or long service life.

## Storage

Tables may not be stored "upside down" outdoors because the edge shape prevents water from running off.

# urbantable tops

**Individualised urbantable\_tops** can be used to great effect at events, trade fairs and promotional activities. Whether for celebrations, as durable advertisements or for sale, they are the perfect platform for your brand.

individualised urbantable\_tops are specially designed according to your wishes – you choose the desired shape and dimension and simply send us your image. The weatherproof wood material has high UV-stability, making the logo table tops appropriate for all conceivable uses – even for temporary outdoor use.

**File formats:** For exchanging data, please use PDF x 1a (2001) V.1.3. Alternatively, EPS files or TIFFs can be used. Please avoid file formats such as AI, IND, DOC, PPF, DXF, etc. These can lead to compatibility or licensing issues. Create fonts as drawing paths or attach the original font file.

## Acceptable file formats

For the best possible printing results, the graphics should always be 80 mm larger than the table top format on each side. Please remove crop marks as well as other marks and reference lines from the print data. Images from the following software and in the following formats and resolutions can be processed:

**Resolution for image files:** at least 300 dpi or 160 – 200 dpi in final size.

**Image editing and graphics programs:** Adobe Illustrator, Adobe Photoshop, Adobe InDesign, Adobe Acrobat, Corel Draw, Macromedia Freehand, QuarkXPress.
