COLOUR CHART

NON-COMBUSTIBLE CASSETTE CLADDING / MANUFACTURED BY FAIRVIEW

# DEPENDABLE, NON-COMBUSTIBLE, VERSATILE, CUSTOMISABLE, RECYCLABLE SOLID ALUMINIUM CASSETTE CLADDING SYSTEM

## PVDF & FEVE COATINGS

Vitradual uses only the highly recognised PVDF or FEVE paints known for their excellent durability.

PVDF (Polyvinylidene Fluoride) is a fluoropolymer-based resin used for coating in many industries and applications for their brilliant weather and UV resistance and unique flexibility.

FEVE (Fluoroethylene Vinyl Ether) is used in many architectural settings due to its resistance to weathering and UV. FEVE coatings have a higher gloss and colour range. The higher gloss range allows FEVE coatings to produce a brighter colour palette and sees it commonly used to produce colours such as yellow, red and green.

PVDF and FEVE's main benefits are around their extreme resistance to UV, temperature cycling, salt spray and atmospheric fallout.

Vitradual panels come in a range of anodised finishes, offering both standard and customised colours and textures, including solid colours, metallic, woodcreate, naturaline, stone effect, sparkling and chromatic.

## COLOUR MATCHING & CREATION

Vitradual has an unlimited colour range, as we can create almost any finish or colour to bring your architectural design to life.

Vitradual panels can also be colour matched to blend seamlessly with existing façades and buildings.

Contact the Fairview team today to discuss your project requirements and vision.

## SOLID COLOURS: WHITE INSPIRED BY PURITY

PURE WHITE 9902  
A

BOLD CREAM 9702  
A

NATURAL CREAM 9103  
C
