

Jet Dryer - Faster, Quieter and more Hygienic

A range of high quality hand dryers to meet your budget and requirements.

Executive

Business

Mini

Eco

Ultra-fast

Offering one of the fastest hand dryer air speeds in Australia at up to 540 km/h (150 m/s).

Hygienic

Anti-bacterial and HEPA air filtration options remove up to 99.9% of bacteria and utilises touch free operation.

High Quality

Manufactured from thick ABS polycarbonate or die-cast aluminium and all units include 3 years parts and 1 year on-site warranty.

Environmentally Friendly

Uses less energy, reduces paper towel waste in landfill and the number of trees cut down for paper = greener planet.

Water Collection

Collects the water removed from hands to reduce the mess and risk of wet floors.

Quiet

Less noise than most other hand dryers with an operating noise level as low as approx. 65 Dba.

Save Time, Saves Power

Can dry hands ½ the time and up to ½ the power of other hand dryers.

Saves Money

Savings of up to 95% compared to paper towel and up to 70% over conventional hand dryers.

Jet Dryer Compared to Paper Towel

BENEFITS

Reduced costs to restock and clean, and no running out of paper towel

Reduction in garbage disposal, removal and landfill paper waste

Eliminate blocked toilets

Optional fragrances help deodorise the bathroom and reduce bacteria

Reduced transport and distribution costs

Executive Jet Dryer Advantages over Competitor's Products

The Executive is one of the fastest, most hygienic and stylish hand dryers on the market and offers the following advantages over competitors;

- ❖ **Water collection** –designed to capture as much water as possible and collect up to 500 hand dries in a lockable, tamper proof water tray to save potential wet floor.
- ❖ **Easy Maintenance** – the water tray can be emptied in seconds and the filter can be easily replaced. HEPA filters should be replaced every 12 months to stop them from getting clogged up with dust and bacteria and to maintain hygiene of the hand dryer and consistent airflow speeds.
- ❖ **Anti-bacterial protection** - the Executive offers 3 levels of antibacterial protects including:
 1. 2 levels of air filtration - antibacterial pre-filter and H13 grade HEPA Filter for 99.95% air filtration.
 2. ION PURE technology which are anti-bacterial Nano particles moulded into the vandalism resistant ABS polycarbonate of the hand dryer for protection of all surfaces.
 3. Optional anti-bacterial fragrances to reduce bacteria on all users hands and to reduce odours around the machine.
- ❖ **Power consumption**- These hand dryers offer power rating of approx. 1200 Watts with a drying time of approx. 10-12 seconds, for a very low power consumption of only 4 watts per use.
- ❖ **Installation** – They are delivered with a power lead and plug or can be hardwired to give you the choice of installation.
- ❖ **Noise level** - The Executive is very quiet with an operating noise level as low as approx. 65 DbA. This is extremely quiet for a hand dryer offering an air speed of 540+ kph or 150 m/s and a drying time of approx. 10-12 sec.

Business Jet Dryer Advantages over Competitor's Products

The Business is one of the fastest, economical, hygienic and stylish hand dryers on the market and offers the following advantages over competitors:

- ❖ **Water collection** –designed to capture as much water as possible and collect up to 500 hand dries to save potential wet floor.
- ❖ **Easy Maintenance** – the water tray can be emptied in seconds and the filter can be removed and easily cleaned.
- ❖ **Anti-bacterial protection** - the Business offers 2 levels of antibacterial protects including:
 1. 2 levels of air filtration - Activated carbon filter and anti- bacterial filter.
 2. Anti-bacterial coating on the vandalism resistant ABS Polycarbonate for protection of all surfaces.
- ❖ **Power consumption**- These hand dryers offer power rating of approx. 850 Watts with a drying time of approx. 10-15 seconds, to make for a very low power consumption of 3.5 watts per use.
- ❖ **Installation** – They are delivered with a power lead and plug or can be hardwired to give you the choice of installation.
- ❖ **Noise level** - The Business is very quiet with an operating noise level of approx. 70 Dba. This is extremely quiet for a hand dryer offering an air speed of 350+ kph or 95 m/s.

Mini Jet Dryer Advantages over Competitor's Products

The Mini offers a great compact, hygienic hand dryer solution for light usage areas with limited space, and offers the following advantages over competitors;

- ❖ **Water collection** –designed to capture as much water as possible and collect up to 250 hand dries to save potential wet floor.
- ❖ **Easy Maintenance** – the water tray can be emptied in seconds and the filter can be removed and replaced.
- ❖ **Anti-bacterial protection** - the Mini offers 2 levels of antibacterial protects including:
 1. 2 levels of air filtration - pre-filter and antibacterial filter.
 2. Anti-bacterial coating on the vandalism resistant ABS polycarbonate of the hand dryer, to reduce the spread of bacteria through touch.
- ❖ **Power consumption**- These hand dryers offer power rating of approx. 880 Watts with a drying time of approx. 10-20 seconds, for a very low power consumption of 5 watts per use. This offers a saving up to 70% over conventional hand dryers.
- ❖ **Installation** – They are delivered with a power lead and plug, or can be hardwired to give you the choice of installation.
- ❖ **Noise level** - The Mini is very quiet with an operating noise level of approx. 75 Dba.
- ❖ **Greater drying area** – The opening of the unit is very wide to accommodate people with wider wrists and larger watches or people drying up to their elbows.
- ❖ These units are ideal for low usage areas, including confined spaces and disabled toilets.
- ❖ The drying time for hands is less than ½ the normal drying time of conventional hand dryers.

Eco Jet Dryer Advantages over Competitor's Products

The Eco offers a fantastic cost effective replacement for any conventional hand dryers and offers the following advantages over competitors;

- ❖ **Maintenance Free** – There is no requirement for on-going maintenance to meet warranty conditions.
- ❖ **Installation** – They are delivered with a power lead and plug, or can be hardwired to give you the choice of installation.
- ❖ **Noise level** - The Eco is very quiet with an operating noise level of approx. 70 Dba. This is extremely quiet for a hand dryer offering an air speed of 320+ kph or 88 m/s.
- ❖ **Power consumption**- These hand dryers offer power rating of approx. 900 Watts with a drying time of approx. 10-20 seconds, for a very low power consumption of 5 watts per use. This offers a saving up to 70% over conventional hand dryers.
- ❖ **Strong** – Made from thick die-cast aluminium it is designed to last in high vandalism area.
- ❖ These units can be used in any number locations including confined spaces, disabled toilets, schools, pubs and clubs and high vandalism areas.
- ❖ The drying time for hands is less than ½ normal drying time of conventional hand dryers.
- ❖ Available in White, Silver and Polished Chrome (Chrome is optional and costs extra)
