Internal & External Door Locking Systems

# DS1500 Hinged Door Furniture

Doric is delighted to unveil its latest range of high quality 316 Stainless Steel door furniture, the DS1500 Series.

Manufactured from Marine Grade 316 Stainless Steel, the DS1500 Series is available in five (5) modern lever designs that are sure to compliment any project.

Whilst most door furniture relies on a heavy duty latching spring inside the lock, the DS1500 has a multiple spring mechanism within each handle, ensuring you will never have issues with handle sagging ever again.

Suitable for single French, bi-fold door and window applications this unique system can easily be matched with identical lever designs throughout the home by incorporating the DS1160 Lever on round rose system.

Compatible for use with any one of Doric's narrow aluminium mortise locks, the DS1500 Series is the durable, sensible and stylish way to lock up your next project.

## Product Benefits

- 316 Stainless Steel finish delivers strength and durability
- Independent spring mechanism on each handle ensures no issues with handle sagging
- 316 Stainless Steel finish provides the highest level of corrosion resistance
- Suitable for hinged doors in French or bi-folding application
- Available in 5 contemporary handle designs
- Universal standard 85mm pitch between lever spindle and cylinder.

### Technical Specifications

<b>Furniture Material:</b>	316 Stainless Steel

## DS1250 Bi Fold Furniture

The DS1250 Twin Point Bi Fold Lock is suitable for use on hinged & bi fold aluminium doors & windows.

- Ease of adjustment. Stainless Steel D shaped tips are threaded internally allowing ease of adjustment of rod tip extension into the head & sill without the need to remove the lock.
- The DS1250 is non handed, suitable for use on both left & right handed bi fold doors & windows.
- Extruded aluminium guide combined with a threaded rod connection provides ease of adjustment and strength.
- No screws required when installing packers. Simply slide under tabs provided.
- The aesthetically pleasing furniture has the lowest possible stand off dimension allowing for the largest achievable leaf opening.
- Stainless steel rods provide corrosion resistance.
