EWFA 31193800 (review of 22794-01)	AS1530.4-2005	18/08/2014	31/08/2019

Introduction

The element of construction described below was assessed by this laboratory on behalf of the report sponsor in accordance with the stated test standard and achieved the results stated below. Refer to the referenced assessment report(s) or Regulatory Information Report(s) for a complete description of the assessed construction.

Description of Assessed Product and Performance

The assessed construction comprised an Amboss ceiling mounted access hatch and ladder assembly in a plasterboard ceiling if tested in accordance with AS 1530.4-2005. The assessment was reviewed and revalidated on 18/08/2014 to be valid to 31/08/2019.

Am-boss Hatch FRL	-/90/90
Resistance to Incipient Spread (RISF)	90 minutes

Refer to the referenced assessment report(s) or Regulatory Information Report(s) for a complete description of the assessed construction.

Conditions/Validity

- THIS CERTIFICATE IS PROVIDED FOR GENERAL INFORMATION ONLY AND DOES NOT COMPLY WITH THE REGULATORY REQUIREMENTS FOR EVIDENCE OF COMPLIANCE.
- Reference should be made to the relevant test report or regulatory information report to determine the applicability of the test result to a proposed installation. Full details of the constructions and justification for the conclusions given, along with the validity statements, are given in the assessment reports.
- The results of these fire tests may be used to assess fire hazard, but it should be recognized that a single test method will not provide a full assessment of fire hazard under all conditions.
