Enter a space of ideas and exploration.  
A place to step back from the infinity  
of information, the tools of technology  
and the everyday possibilities of a project.  
Designed to inspire the most creative.  
A place to pare back and delve into the  
fundamentals of the space in question.  
To capture the essence of good design.  
To define and refine your vision into  
a distinctive, ingenious outcome.

**This is a place to dream.**

**This is Signature Studio.**

**What's your inspiration?**

INSPIRED BY  
NATURE

Inspiration can come from anywhere, yet few things eclipse the creativity of nature.

From the microscopic to monolithic, nature provides cycles, diversity, beauty, colour, sensory encounters and random events that never cease to change and challenge us.

Abstraction inspires us to explore systems, sequences and patterns  
It reminds us that fresh combinations and previously unrelated thoughts, materials and ideas  
can result in extraordinary new insights and solutions.

**EXCITED BY  
ABSTRACTION**

From the ancient to the most contemporary man-made structures,  
the built world's mastery of stone, steel, wood and glass encourages our drive  
to extend beyond boundaries and strive for new heights.

MOVED BY OUR  
BUILT WORLD
