

PRODUCT INFORMATION BULLETIN
POLYEURO® 5502F

**MOLYMET LTD
BUND SEALING / TANK FARM
CORROSION PROTECTION**

LOCATION / JOB DETAILS

Project: Molymet Bund Project.
Corrosion protection.
Client: Molymet Ltd.
Product: POLYEURO® 5502F.
Volume: 6,000 litres.
Completion: June 2007.

ON-SITE REQUIREMENTS

- Long term protection of all concrete surfaces to provide a membrane impervious to spills of process solutions.
- The coating had to provide a seamless application to the concrete surface.
- Provide a membrane with superior crack bridging properties.

PRODUCT REQUIREMENTS AND BENEFITS:

- Fast cure, tough, resilient and elastomeric.
- Excellent chemical resistance properties to meet the potential exposure conditions over the expected in-service life of the product.
- Seamless application of the coating system.
- Abrasion and impact resistance to withstand mechanical damage from other works or production vehicles.
