We're all about speed and quality.

We know that you struggle to afford the time for flooring to be done, but you must get it done.

So, we want to make this easier:

- We have several teams and specially kitted out vans to enable us to be flexible with scheduling, and be there when you need us
- We use products that cure FAST.
- Our men are trained and experienced in getting the job done.
- We send site managers to manage the project, because we know you don't have time for a hassle
- We clean up after ourselves
- And we schedule, so we can fit into your timeframe
- We do both flooring and drainage, so it's a whole package – and it all looks good together

Please have a look at our pictures here, keep the magnet, and call us if you need a quote.

Regards,

The Team at Allied

// FAST // SAFE // CLEANABLE
