SKYWINDOW

ROOF WINDOWS AND SKYLIGHTS

- ONE-PIECE FLASHING TO SUIT AUSTRALIAN ROOF PROFILES
- QUICK, EASY INSTALLATION
- GLAZING OPTIONS
- BLOCK-OUT BLINDS
- POWDERCOATING TO MATCH ROOFING (STANDARD SLATE GREY)
- 7 YEAR MANUFACTURERS GUARANTEE

The Skyspan Skywindow is the ultimate choice when it comes to Utilizing Nature's Gift of natural lighting in your home. Rooms are provided with natural light and ventilation, away from the exterior walls, in cost and energy efficiency.

The Skyspan Skywindow is available in two models, the opening model the GSW and the fixed model the GSL.

The Skyspan Skywindow is Australian made for Australian conditions. It comes with a one-piece flashing for complete water tightness and peace of mind. The Skyspan Skywindow can be installed at any roof pitch – eliminating the need for unsightly pitch adaptors.

Skyspan's Skywindows fit all roof profiles. The flashing is a one-piece unit designed to suit the Australian roofs and Australian conditions. The standard unit is manufactured from Zincalume steel, aluminium and pine for durability and is designed for economy, a low silhouette and easy installation. The Skyspan Skywindow comes standard in a Slate Grey finish. Other colours are available to match standard roof colours.

The Skyspan Skywindow comes standard as a non ventilated unit with the option of passive ventilation.
