Basins

Our Urbane II Collection basins feature a contemporary thin-rim design to make a fashionable statement in any modern bathroom. Urbane II basins include an integrated ceramic pop-up plug and waste which sits flush with basin when open.

For a seamless and clean design, explore our optional pop-up plug and wastes to match with your basin. Available in chrome, matte black, brushed nickel, brushed brass and gunmetal, these metallic plug and wastes provide a consistent design match with Urbane II tapware, showers and accessories.

INSET BASIN

Inset basins are partially set into a vanity reducing the appearance of the basin rim without reducing the depth of the bowl.

ABOVE COUNTER BASIN

Above counter basins are installed directly on top of a vanity with minimal installation requirements.

SEMI RECESSED BASIN

Semi recessed basins partially overhang the vanity allowing you to maximise your basin size on applications with limited vanity space.

WALL BASIN

Wall basins are installed directly to the wall with no need for an additional vanity.
