Panel Systems

EXTERIORS

Designed to provide insulated and air-tight connections, the ASKIN external wall and facade panel has had proven performance for decades. Its uses and abilities are only limited by the creativity and imagination of the designer.

INTERIORS

ASKIN performance panels internal walls and ceilings capture the very essence of modern architecture. Complimented by superior spanning and its pleasing aesthetic.

ROOFING

The ASKIN Roofing System is a fully integrated Ceiling & Insulated Roof “all-in-one”. It is fast to install, weather tight and extremely thermally efficient. With key supply partners, ASKIN offer a range of skylights, trafficable access walkways and safety systems to complement our roofing systems.

DOORS

ASKIN’s world class door manufacturing facilities supply a great range of insulated doors. Through continual innovation, our doors utilise energy-saving building techniques to maximize efficiency within your built environment.

SOLUTIONS

ASKIN embraces a holistic and practical approach in providing a total solution. This is encompassed by working with all parties to understand and develop the best practical solution.

ASKIN™
Performance Panels

Performance

SPECIFICATION

For any construction it is important to clearly define the materials and components. ASKIN has a wealth of experience matching insulated panel products to industrial applications. The ASKIN specification provides details on every aspect of your panel solution.

ENGINEERING

Building on fifty years of experience in technical construction, ASKIN, delivers world class performance and design to the commercial construction, processing and cold chain industries.

INSTALLATION

ASKIN installation provides a comprehensive range of construction and project management services. This installation is backed with ISO 9001 accreditation, and supported by a high standard of service and construction excellence.

MAINTENANCE

ASKIN maintenance can provide a full service and maintenance plan, that will extend your warranty, providing a whole of life solution.

LOGISTICS

Logistics have a nationwide footprint with local understanding and service capability. We are able to efficiently and effectively move materials, products and resources to meet our customers needs and timing.

OUR VALUES

ASKIN is a company driven by technological advancement which our clients experience through reliable performance in our products and services supported by industry experts with an exceptional level of personal dedication.

RELIABLE

// Honesty in communication

// Integrity in action

// Quality in delivery

// Consistent performance over time & space

KNOWLEDGABLE

// Dedication to technological advancement

// Knowledge driven teams

// Know-how based expertise

// Superior performance in products and people

PERSONALLY DEDICATED

// Pride in achievements

// Passion to exceed expectations

// Commitment and loyalty to the company and clients

ACCESSIBLE

// Family-feel the small business approach

// Collaboration with partners & clients

// Personable consultants

// Direct action

// Australian company

ABOUT US

ASKIN are the largest manufacturer and installer of insulated, fire rated and architectural facade systems, roofing systems and temperature controlled facilities in Australiasia. With a network of 12 sites throughout Australia and New Zealand ASKIN's vast experience has been built upon a strong foundation dating back to 1964. ASKIN's culture of customer first, constant improvement, quality and safety assurance, supported with our technical expertise, and ISO9001 Accreditation.

With half a century of experience in the Performance Panel industry, ASKIN knows what you need to complete your controlled environment project. At ASKIN we stock and supply a full range of accessories, including sealants, fixings, suspension systems and pressure relief ports.

"ASKIN Performance defines a unique level of service excellence based on cutting edge panel technology. The strength of the brand is derived from the sum of its parts: local organisations across Australia and New Zealand made up of highly dedicated individuals who work closely with their clients as specialists in their field, applying the most advanced panel technology to achieve exceptional results. This level of dedication and quality is captured by one word: PERFORMANCE."

Steve Clarke, Group Chief Executive Officer / Managing Director

ASKIN
Performance Panels

ENVIRNOMENTAL SUSTAINABILITY

At ASKIN we are passionate about environmental awareness and sustainability. We've been actively involved in reducing energy consumption through our sustainable construction systems and we supply a completely recyclable product to the market.

THE CARBON FOOTPRINT

Through the use of responsible design concepts in conjunction with XFLAM Insulated Panel Systems, consumers can reduce energy usage and aid in the reduction of greenhouse gas emissions. A system which boasts negative energy consumption balanced across the products lifecycle.

REDUCE, REUSE AND RECYCLE

Within our own business, we take our green credentials seriously, not only recycling and reconstituting the by-product, we are ISO 14001 accredited – Environmental Management System.

GREEN BUILDINGS

Ongoing energy savings are made year on year through outstanding climate control provided by the panel's continuous insulation properties, reducing heating, refrigeration and air conditioning costs. XFLAM insulation core can be recycled or re-manufactured at the end of it's useful life.

DISCLAIMER

ASKIN makes every effort to maintain the accuracy and quality of the information provided in this catalogue. However, ASKIN cannot guarantee and assumes no legal liability or responsibility for the accuracy or completeness of the information provided. The information provided in this catalogue is for general guidance only. You should seek appropriate professional advice from ASKIN representatives on your particular circumstances as the application of the ancillaries listed in this book may vary depending on your particular circumstances.

Items in this catalogue may not be stocked in each location throughout Australia and New Zealand. These items will subsequently incur further lead times. Please check with your ASKIN representative for more information.

ASKIN makes a wide variety of custom windows to suit any project. Below is a list of different options you can choose from to create the most appropriate window for your circumstances. Please ask an ASKIN representative for more information.

Frame: Aluminium
PVC
Composite Frames

Type: Sliding
Fixed

Shape: Square
Round

Glazing Material: Glass
Polycarb

Glazing: Single Glazed
Double Glazed
Double Glazed & Argon Filled
Triple Glazed
Triple Glazed & Argon Filled

Heating: Heated
Non-Heated

Special: 45 Degree Sill
Safety Films

Units of measure: ea = each; lgth = per length; mt = per meter; p/m² = per meter squared. For pricing information please refer to your local ASKIN representative.

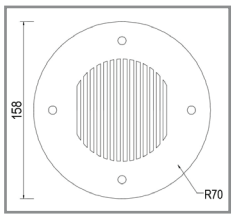
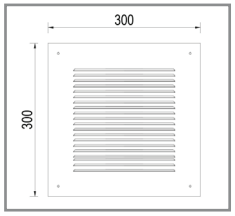
Description: Nordon Pressure Relief Port
Temperature Range: +1° to -25°C
Room Volume: 1 per each 40m³
Composition: Polypropylene
Cut out dimension: 100mm Diameter
Finish: Matte, Off White

Panel Thickness:	Item code:	Unit:	Price:
65 to 150mm	10160000	ea	$_____



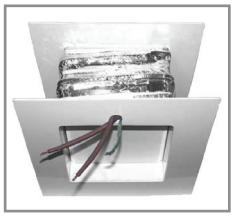
Description: Pressure Relief Port
Temperature Range: +40° to -42°C
Room Volume: 1 per each 125m³
Composition: Polypropylene
Cut out dimension: 100mm Diameter
Finish: Matte, Off White

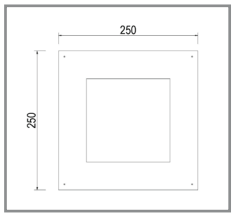
Panel Thickness:	Item code:	Unit:	Price:
70 to 150mm	10160001	ea	$_____



Description: Pressure Relief Port
Temperature Range: Up to -45°C
Room Volume: 1 per each 3000m³
Composition: Injected moulded polycarbonate & aluminium cover plates
Cut out dimension: 200x200mm
Finish: Matte, Off White

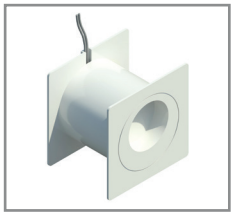
Panel Thickness:	Item code:	Unit:	Price:
150mm	10160002	ea	$_____
200mm	10160003	ea	$_____
250mm	10160004	ea	$_____

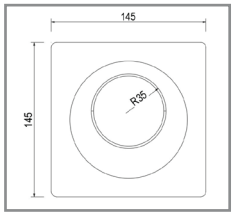




Description: Pressure Relief Port
Temperature Range: Up to -25°C
Room Volume: 1 per each 750m³
Composition: PVC
Cut out dimension: 150x150mm
Finish: Off White

Panel Thickness:	Item code:	Unit:	Price:
150mm	10160005	ea	$_____





Description: JAV Pressure Relief Port
Temperature Range: -20°C to 40°C
Room Volume: 1 per each 40m³
Composition: PVC
Cut out dimension: 100mm Diameter
Finish: Off White

Panel Thickness:	Item code:	Unit:	Price:
100mm	10160006	ea	$_____
150mm	10160007	ea	$_____
200mm	10160008	ea	$_____
