Homestart Finance.

KEY-ENDURA PRODUCT SUMMARY

SOURCING AND SPECIFICATIONS

KEY-ENDURA is 100% Australian Made fibre cement produced from top quality materials from Australian suppliers to meet our clients' architectural requirements. **KEY-ENDURA** Fibre Cement panels come Recessed or Square Edged and are easy to install onsite.

ACOUSTIC OPTIONS

Just like the visual customisations, numerous acoustic customisations are also available for **KEY-ENDURA**. Advanced compressed perforation techniques and various backing materials are utilised to optimise the sound performance to suit client requirements.

- ✓ Perforated and slotted panels are available in five standard patterns
- ✓ Acoustic Amplification using K100 acoustic backing

INSTALLATION OPTIONS

KEY-ENDURA Fibre Cement are manufactured to be installed by a builder or nominated contractor.

- ✓ Ceiling panels can be fixed by standard KeyLock Rondo system or similar.
- ✓ Wall panels fixed to furring channels and Screw fixed through face panel.
- ✓ Exposed grid system – consult manufactures for detail fixing methods.

SIZE AND THICKNESS

KEY-ENDURA Fibre Cement panels offers a vast range of standard sheet sizes & thickness, based on client's requirements. These can be custom cut and shaped to suit your architectural specifications. Sheets come with a Recessed Edge for your convenience to be flush joined into existing Fibre Cement. Consult **KEYSTONE** for best options.
