

The Aquafil FlexiShower is our signature 2100mm-high outdoor shower station designed specially for coastal public environments.

The product can be configured with one shower head space (single sided) or two (double sided), and comes with two anti-bacterial bottle refill points as well as integrated signage panels as standard. Drinking fountain basins, dog drinking bowls, water meters and filters can also be added.

With a time-flow valve that minimises wasted water, as well as heavy-duty stainless steel construction, the Aquafil FlexiShower is the ideal addition to any public beach or waterfront precinct.
