

Elemental  
TERRACOTTA

We invite you to share in the beauty of terracotta.

A journey **crafting** precious earth into roofing tiles of the finest quality; of raw, baked terracotta to sophisticated colours and glazes that will never rust or fade.

Inspired by the glorious images of Australia by Richard Woldendorp, we share our vision for terracotta.

The foundation of **beauty and strength** for your home.

Terracotta

Elemental

Monier

An aerial photograph of a sandy beach. The top of the image shows the ocean with white, foamy waves crashing onto the shore. The beach is composed of light-colored sand with several dark, wavy lines of vegetation or seaweed scattered across it. The overall scene is serene and natural.

Story One

PENINSULA

That connection between land and sea that makes us feel both **grounded and free.**

Rocks and sands contoured by the wind into flowing shapes and circles for **calmness and retreat.**

Simple forms and clear sight lines across sand and water for the mind to wander whilst the body relaxes.

**Light** colours that reflect the rays of the sun to keep us **protected and cool.**

**A home of calmness and light.**

**coolness and warmth.**

Find **solace and privacy** in its atmospheric  
depths; share the **lightness and brilliance**  
at its peak.

random but with **meaningful purpose.**

Seeking out new paths that can be
