

fringe

Fringe pushes the boundaries associated with stocked carpet design. The collection is woven in Brintons own 80% wool, 20% nylon yarn blend for optimum performance.

This striking collection of eight broadloom woven Axminster carpets is designed with a sophisticated colour palette that combines dramatic scale and pattern to create a capsule collection of stocked Axminster carpets that are both easy to maintain and beautiful to walk on.

shadow

Shadow is an exciting collection of six wool rich 80% wool, 20% nylon, woven Axminster carpets which bring vibrant, sophisticated pattern to the floor.

Thoughtfully designed to complement Brintons stocked Range Fringe, the carpets in Shadow can be used in isolation or in conjunction with those from Fringe to create on-trend, visually inspiring interior spaces.

switch

'Switch' to the next generation of stocked carpet design. This collection boasts an eclectic mix of styles; chic architecturally-inspired geometrics, interspersed with vibrant hues of rich three-dimensional textures. Each pattern unites dramatic design with a profusion of delicious colour.

Woven in Brintons' own 80% wool, 20% nylon yarn blend and available from stock in 2m width, Switch offers specifiers and end users a choice from ten exciting designs that are sure to delight.

vital

Vital has been thoughtfully designed with Healthcare in mind. Our very first 100% Solution Dyed Nylon woven Axminster collection comes standard with Sanitized® anti-microbial treatment and impervious backing to prevent liquids from penetrating through the backing and into the subfloor.

However, it's not just healthcare that can benefit from these standard inclusions. Hot and humid temperatures can sometimes wreak havoc with traditional carpet, and hospitality venues prone to the odd drink spill can rest assured that when accidents do happen, the spill can be contained and cleaned easily.
