TECHWOOD 2.6

VENETIAN SHAPE AND CONTROL TYPES 2.8

VERTILUX VENETIAN BLINDS OFFER AN INNOVATIVE BLEND OF CLASSIC STYLE AND STATE OF THE ART ENGINEERING, USHERING A NEW ERA FOR THIS TIME-HONOURED TRADITION IN WINDOW COVERING.

OUR PRECISION ENGINEERED COMPONENTS EFFORTLESSLY POSITION TO REGULATE LIGHT, GLARE AND UV PENETRATION. VENETIAN BLINDS MINIMISE ENERGY COSTS BY PROVIDING EXCELLENT INSULATION IN BOTH SUMMER AND WINTER.

Vertilux Venetian Blinds are easy to operate and offer total light control. Clean lines and unobtrusive ladder tape enhance the overall effect.

Vertilux Venetian Blind Systems lend themselves perfectly to motorisation for ease of use; with no cords to be concerned with and also for those hard-to-reach applications. Motorised systems can be operated via remote control. Alternatively, Vertilux Venetian Blinds can be pre-programmed to self-operate at desired times of the day or night. Perfect for situations where large numbers of blinds need to be tilted, raised or lowered, Vertilux

Motorised Venetian Blinds can even be programmed so that light control is automatic.

Our Vertilux Cedarline Venetian Blinds are a classic blind choice made from the highest quality genuine natural cedar. They complement contemporary as well as period and heritage homes, adding warm, natural texture to any interior space.

Vertilux Timberline Venetian Blinds are made from 3mm thick Abachiwood in a range of pre-finished colours.

Vertilux Techwood Venetian Blinds are made from PVC co-extrusion. This makes them

elegant, durable and provides an economical alternative to traditional timber/cedar Venetian Blinds.

Completely washable, this product will not absorb moisture and is suitable for wet and humid areas such as bathrooms and kitchens.

Vertilux offer a wide range of shape options for the full range of Venetian Blinds, such as skylights, caravans and Cathedral shaped windows. We can also tailor Venetian Blinds to your particular windows from a template.
