Sanifos® 280

The Sanifos® 280 is a packaged pumping station designed for smaller single dwelling use such as granny flats and is an efficient solution where gravity reliant sewerage systems are not possible due to limited site access and site constraints such as property sloping away from the sewer infrastructure.

WHY CHOOSE THIS PRODUCT?

Ideal for small single dwelling residential or small commercial applications

- Tough reliable cutter pump suitable for heavy usage
- Compact space saving tank design
- Engineered to Australian Standards AS1546
- Wired high level alarm
- Choice of optional inlet connection points
- Working temperature of 70°C max for short periods
- IP68 rated
- Complete package ready to install. Includes internal pipework, non return and ball valve supplied
- Energy saving and reduced motor wear thanks to large working volume

Sanipump Cutter

Robust blade suitable for heavy usage

VERTICAL/HORIZONTAL PERFORMANCE

Increase size of horizontal run by one pipe size after 5m.
All horizontal pipework requires a minimum of 1:100 fall.
