In harmony with the environment

With gorgeous designs, incredible durability and easy maintenance, Sunbrella® is in a class all its own. It provides the ultimate in stain resistance and cleanability – all while living in harmony with the environment. Decades before today's "green" movement, Glen Raven, Inc. committed to exceeding industry benchmarks for environmental stewardship. Through ongoing initiatives with our vendors, trade partners and customers, we will stay in the forefront of protecting our environment. Below are some of the ways Glen Raven continues to protect air, earth and water while producing quality, high-performance textiles.

Sunbrella fabrics offer significant sun protection

The Skin Cancer Foundation recommends Sunbrella* as an aid in the prevention of sun-induced damage to the skin. Please use shading products featuring Sunbrella as a part of your complete sun protection regimen, including regular use of sunscreen.

* Does not apply to styles of Sunbrella that are designed for transparency, such as Sunbrella Shadow.

The roof to the outdoor room

Sunbrella fabrics were introduced in 1961 as a replacement for cotton canvas awning fabrics. Today, awnings are one of the best ways to provide shade for the outdoor room, while

saving on your electric bill. A recent study by the University of Minnesota showed that awnings reduce home cooling energy consumption by 10-60%.

Sunbrella furniture fabrics are GREENGUARD® certified for indoor air quality.

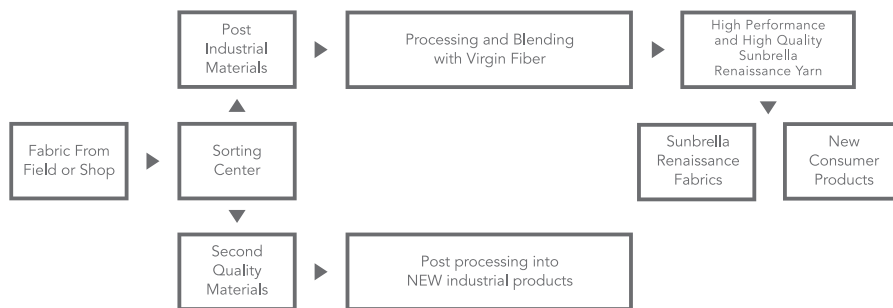

Sunbrella furniture fabrics are certified by the GREENGUARD Institute's Children and Schools standard as contributing to healthy indoor air by being a very low emitting interior product.

Sunbrella offers recycling service for customers

For over 30 years, Sunbrella has recycled its industrial wastes such as yarn, fabric and packaging. As a result, Sunbrella's South Carolina Plant sends absolutely no waste to the landfill.

Sunbrella also provides a unique way for customers and consumers to recycle Sunbrella fabrics through a revolutionary take-back program called "Recycle My Sunbrella." For more information on our continuing commitment to sustainability and the environment, visit www.recyclemysunbrella.com.

Sunbrella Renaissance fabrics

Sunbrella Renaissance fabrics were created with two objectives in mind: creating beautiful, vintage-inspired upholstery fabrics and recycling post-industrial fabric waste.

We proudly introduce Heritage, the first Sunbrella Renaissance fabric. Heritage's 50/50 blend of virgin and recycled Sunbrella fiber gives it distinctive charm, high performance and 100% Sunbrella reliability.

Heritage is equally suited for indoor applications where cleanability and performance are critical and for outdoor applications where superior fade resistance is expected.

a BEAUTIFUL performance

ENDURING COLOR

Sunbrella fabrics' color stay strong and vibrant, even through intense sunlight exposure and cleaning with bleach.

SUMPTUOUS HAND

Sunbrella fabrics are as soft and inviting as they are durable.

DRAMATIC EFFECTS

Sunbrella fabric is available in hundreds of solids, stripes and textures as well as exquisite decorative jacquards.

WORRY FREE

Sunbrella fabric resists stains and fading, so you can stop worrying about your fabric and enjoy life.

Sunbrella fabrics are durable and easy to clean

High performance, UV stabilized pigments are added during the production of fade-resistant Sunbrella fiber, giving Sunbrella yarn and fabric color throughout that won't fade or wash away. Think "carrot."

In ordinary fabrics, dyes are added to the surface of the yarn or fabric. The color only penetrates the outer layer and washes out or fades away over time. Think "radish."

The indoors and outdoors are forever united

The new generation of Sunbrella performance fabrics and accessories has forever blurred the lines between indoor and outdoor living. Bring the ease of cleaning and fade resistance inside or take decorative luxury outside – the choice is yours. When you live with Sunbrella fabrics, you can have the ultimate in beauty, durability and cleanability in any environment.

In addition to the beautiful fabrics featured here, exclusive Sunbrella collections are available through many decorative jobbers. For more information and a wealth of inspiration, visit www.sunbrella.com.

Sunbrella limited warranty

Our 5-year limited warranty covers Sunbrella® upholstery fabric against loss of color or strength from normal use including exposure to sunlight, mildew and atmospheric chemicals.

Care and cleaning

Keeping Sunbrella fabric looking its best is simple and easy.

- Use a sponge or soft brush to apply mild soap and warm water to the fabric.
- Rinse thoroughly.
- Air dry.

For stubborn stains or mildew:

- Add one cup of bleach per gallon of soap and water.
- Apply directly to the stain.
- Use a sponge or soft brush to clean.
- Rinse thoroughly.
- Air dry.
- If necessary, repeat with additional bleach.

Always rinse thoroughly. Bleach won't harm Sunbrella fabric, but it could damage clothing if not rinsed away.

Sunbrella fabric air dries very quickly. Machine drying is unnecessary and high heat may damage the fabric.
