Quality First

Concrete Sleepers

- ✓ Concrete sleepers are available in 3 original textures and many colours.
- ✓ All are manufactured using high strength concrete (35mpa) and reinforced with steel for increased structural strength.

- ✓ Concrete sleepers are easy to install using steel posts. A combination of 'H' section and channel can be used to erect any wall. Angled corner posts internal & external are also available.
- ✓ Sleepers can be cut to any length to complete your wall.
