

GRIPSET[®] GCI

**HIGH PERFORMANCE WATERPROOF
& VAPOUR BARRIER SHEET**

**Just one hour after waterproofing,
we installed tiles. Normally,
need to wait for two days.
You can't beat that."**

Bassem El Ali, Director, Paskal Tile & Stone

**REDUCES LABOUR TIME BY 50%
TO FAST TRACK WATERPROOFING PROJECTS**

**Durable tear
resistance**

**Reduce
labour time**

**Offers 20 year
guarantee***

**Anti-fracture
system**

Gripset GCI is an innovative sheet membrane system, providing high performance waterproof and vapour barrier protection in the built environment. The unique properties of the GCI membrane enable it to form a fast and reliable waterproof tanking system for numerous applications.

You can now complete projects faster, enabling surface finishes such as tiles, screeds and toppings to be applied immediately after the membrane system has been installed.

**NEW
RELEASE**

**Available in
30m x 1m rolls**

FEATURES

- Provides an immediate waterproof finish upon completion, avoids delayed drying times
- Fast and reliable sealing method. Reduces labour up to 50%
