

INNODECK & LANDSCAPE

INNOWOOD PREMIUM DECKING

The INNOWOOD Premium “Fibre Deck” System is a revolutionary composite product that utilises a new patented technology that fuses two fibre glass layers during the production process, within the co extruded wood composite material layers.

FLEXIBILITY

- Quick & Easy to Install
- Safe – no nail and splinter free
- Clean fixing free surface Finish
- Long lasting

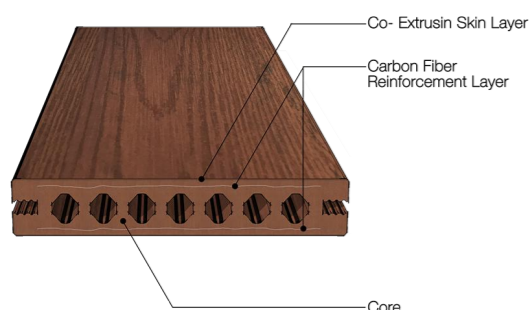

APPLICATIONS

- Residential Applications
- Commercial Applications
- Health & Aged Care Facilities
- Educational Institutions
- Retail & Shopping Centres
- Public Spaces

PREMIUM DECKING WITH SMART CLIP FIXING

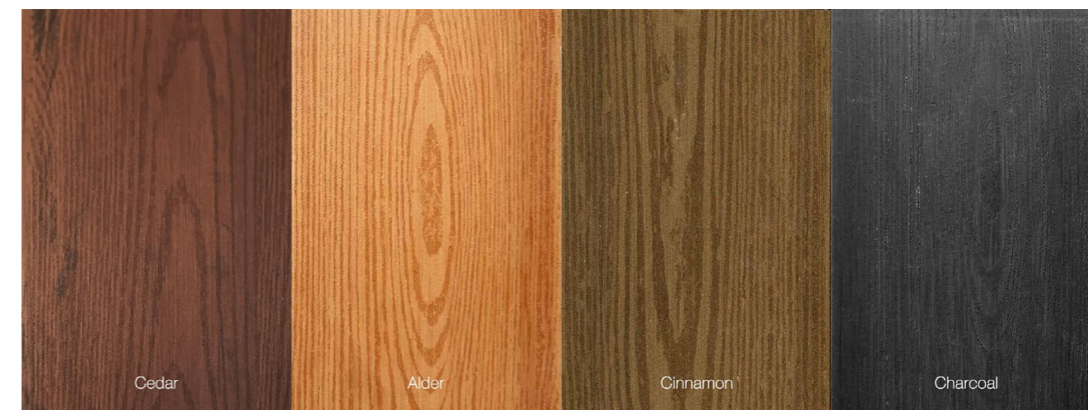

INNOWOOD Premium Fibre Tech Decking with Smart Clip Fixing System utilises hidden connectors slotted into grooves along the sides of the decking board profile which are fixed down to joists or battens. The system provides a clean hidden fixing surface. This patented technology enhances the rigidity, durability and toughness of the decking board to achieve better performance by significantly minimising the board movement at different temperature.

PROFILE	
PRODUCT CODE	DB14025
MAX SPAN COMMERCIAL	350mm
MAX SPAN RESIDENTIAL	400mm
COVERAGE	140mm
STANDARD LENGTH	4500mm
PREMIUM DECK COLOURS	Available

* *To ensure long-term performance we recommend that a professional trade person carry out the installation. The installation must be carried out in accordance with these instructions including the use of all trims and accessories.

INNODECK & LANDSCAPE

Unlike timber, INNOWOOD Decking & landscape solutions are lightweight for significant cost savings, environmentally friendly, low maintenance, fire resistant, slip resistant and highly durable.

INNOWOOD Decking looks and feels like natural timber but delivers superior performance, with none of natural timber's challenges. Available in two options, InnoDeck and InnoTiles.

FLEXIBILITY

INNOWOOD Decking products can be used in a wide variety of outdoor applications including decks, planter boxes and street furniture.

CAPABILITY

Options that utilise fixing details capable of delivering unrivalled possibilities.

DESIGN INTENT

Innovative Decking systems that can be integrated into any landscape design.

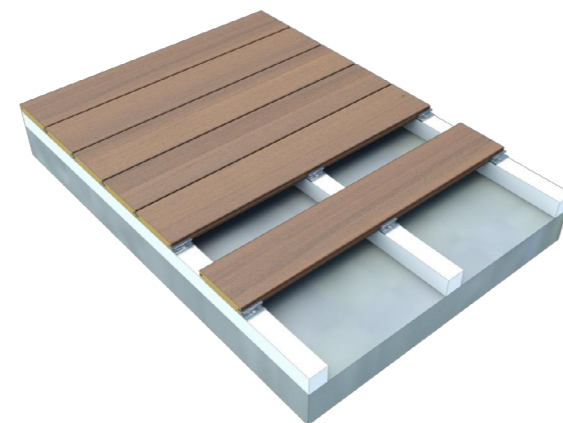

BENEFITS

Decking that provides highly desirable warmth and character that comes from the closest composite to natural timber.

INNODECK

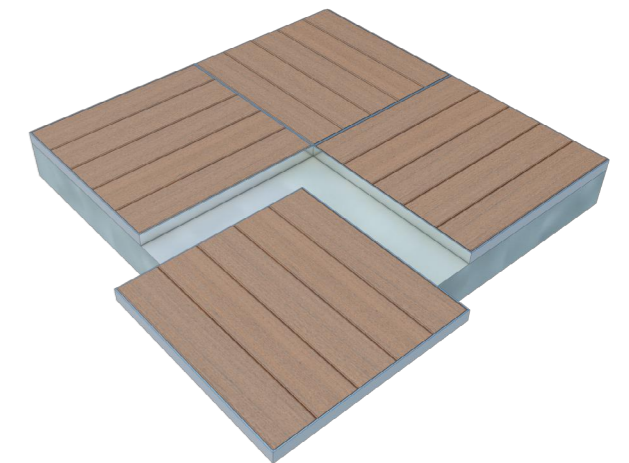

InnoDeck's nature inspired embossed surface delivers the highest wet pendulum slip rating possible to create a safe, slip-resistant surface. Designed primarily around the concealed fixing system, which is both functional and easy to install, InnoDeck delivers a sleek modern fixing free finish. Alternatively, InnoDeck can be facefixed if desired to accentuate the fixing points and create a more traditional classic look in your deck.
