

The path to ultimate performance

SkyLine Cook&Chill

The Electrolux Professional difference

More efficient, more profitable and more human-friendly kitchens.
That's the Electrolux Professional promise.

Stress is not a necessary ingredient in great-tasting food.*

Small amounts of stress can sharpen performance but high levels over a prolonged period of time can contribute to health problems, such as high blood pressure, diabetes, and heart disease.

44% of chefs in the US have been on sick leave due to stress

55% of US chefs have used or considered using prescription medication to calm down after a stressful day at work

51% of chefs working in London said have suffered from depression due to overwork**

Our Promise

Electrolux Professional is making customers' work-life easier, more profitable – and truly sustainable every day.

Our objective is to **raise awareness about the growing culture of negative stress in professional kitchens and revolutionize the way you work.**

“We have to start challenging the perception that negative stress is necessary to create great tasting food. In the end I believe that happy chefs create better food.”

Philip Lloyd, Culinary Instructor at the Art Institute of Charlotte

* According to 'Taste the Stress', a two-phase social experiment conducted by Electrolux Professional in 2017. 200 US chefs aged 18-65+ were surveyed. Two teams of professional chefs created the same menu, one using Cook&Chill (blue team), one using conventional cooking methods (red team). Food was judged by an independent jury and chefs stress levels were monitored. Heart rate monitors showed that red team (151 minutes) was more stressed than the blue one (72 minutes). The red team, not being able to streamline the work, also wasted time and energy taking around 2000 more steps per chef than the blue team. **The jury ranked the teams' food as equally delicious – proving that stress isn't a necessary ingredient to create great tasting food.**

SkyLine cook & chill

OnE Connected helps you get top performances from your Electrolux Professional solutions. This will maximize your profits and accelerate your return on investment.

Improve your work life

24/7 real time monitoring

Electrolux Professional OnE gives you remote control over your operations like managing recipes to devices all across the globe in just one click or receiving HACCP alarms in real time.

Earn more

Maximize profit

Electrolux Professional OnE helps you reduce consumption to a minimum and optimize the efficiency of your business.

Smart savings. Monitor the consumption of your connected oven to detect anomalies and improve the efficiency of your workflow, based on production needs.

Smart usage. OnE helps you see how to rationalize your productivity: you could use 2 ovens & 2 blast chillers instead of 3 outside of peak times.

Guaranteed hygiene

Shouldn't we guarantee everyone safe and healthy meals?

Connectivity also means safety. **Automatic digital HACCP documentation** will provide compulsory evidence of safe cooking processes and quality, saving you time and paperwork.

With data at your fingertips, you can make adjustments where needed to ensure your processes are respecting the hygiene and food safety requirements.
