VISION CONTROL SOLUTIONS

The Ultimate
security glass

The Ultimate security glass

DefendaShield Ultra™ is a specialised security laminate designed to offer unmatched protection for high-threat facilities. As a lightweight glass solution, it provides unparalleled security tailored to meet your unique design requirements.

Enhanced Light Control and Privacy with Integral Blinds

Experience the perfect blend of security and privacy control with DefendaShield Ultra™ integrated seamlessly with our Integral Blind Systems. Boasting precise control of light the integration of DefendaShield Ultra™ into our Integral Blind Systems is the ultimate combination of functionality and security in modern architecture.

Unrivaled Security for Critical Environments

Specifically crafted for police stations and mental health facilities, DefendaShield Ultra™ sets new standards in security. Its engineering incorporates a blend of carefully selected glass types and thicknesses, combined with specialised security interlayers. The result is a glass product that demonstrates remarkable resilience against concentrated assaults.

The Ideal Security Glass for Every Requirement

With the DefendaShield Ultra™ range, we have a solution to suit every need

DefendaShield Ultra™ 10: Ideal for low to medium-risk facilities such as observation or holding cells, police station detention areas, mental health institutes, pay offices, high-risk display cases (museums, art galleries, etc.), and banks.

DefendaShield Ultra™ 12: Versatile and perfect for medium to high-risk areas within facilities, including remand centers, juvenile justice centers, high-risk police detention areas, and mental health facilities.

DefendaShield Ultra™ 14: Our premium security glass designed for maximum risk areas in facilities such as juvenile justice centers, remand centers, correctional facilities and acute or forensic mental health facilities.

Features and **BENEFITS**

- Conforms to AS/NZ2208 for safety glazing material.
- Available in single and double-glazed configurations for added versatility.
- Compatible with Controllaview™ Integral Blind Systems.
- Suitable for both internal and external applications.
- Demonstrates prolonged impact resistance in non-rated security applications where design considerations may prevent the use of ordinary glass.
- Now part of our standard product range, making it easier to specify and purchase.
- Blocks 99% of unwanted UV light.

APPLICATIONS

- ↳ **Windows**
- ↳ **Doors**
- ↳ **Facades**
- ↳ **Overhead Glazing**
- ↳ **Partitions**
