

The CubeLok is a highly-configurable, durable and economical locker system suitable for both indoor and outdoor use.

The product features a heavy-duty, easy-to-clean polyethylene design with UV stabilisation, weatherproofing and corrosion-resistance for excellent performance in exposed environments. The product can be configured in a number of ways – from compact and stacked to a full-height single-door layout.

Five different base profiles are available to choose from depending on the depth of unit required, with an additional 25 colours to select from for both the locker door and locker panelling. Internal shelving, hanging clothes rails, garment hooks and several locking options are also available as part of the product configuration process.

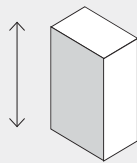

Lightweight and easy to install with numerous optional accessories, the FlexiLocker CubeLok is a popular and convenient storage solution for schools, workplaces and fitness centres.

Configuration process

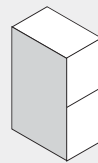

1. Choose a base profile

- Type 1 (Standard): 380 W x 450 D
- Type 2 (Extra Deep): 380 W x 585 D
- Type 3 (Extra Wide): 490W x 485 D
- Type 4 (Narrow): 305 W x 450 D
- Type 5 (Compact): 305 W x 305 D

2. Choose a height

- 250mm
- 460mm
- 670mm
- 880mm
- 1090mm
- 1300mm
- 1510mm
- 1720mm

3. Choose door configuration

4. Choose colours
25 colours to choose from

5. Choose accessories

- Shelving
- Name plate
- Garment hook
- Base plate
- Top piece

Contact a CIVIQ Sales Executive to guide you through the configuration process. Phone **1300 600 300** or email sales@civiq.com.au
