

Widen your Horizons

Beauty from Horizon to Horizon

Horizon lowline 2000 Pebbles with 50mm Black trim

Horizon gas fires are simply beautiful.

With all the gas controls hidden, the high flame gas pebble, coal or log fire appears to float on the fireplace base. The base is also available in an optional stainless steel finish creating an even further stunning contemporary style. For your décor around the fireplace choose from a range of trim options, black or stainless steel in 50mm, 100mm or 150mm sizes, or for an even more clean-lined look, choose the plaster trim as shown on bottom left picture.

Horizon lowline 1100 with Plaster trim

Horizon lowline 700 with 150mm stainless steel trim and stainless steel base

Horizon lowline 1100 Logs with
100mm stainless steel trim

Horizon fires
with their high gas input offer more flame, more glow and more realism.

Horizon 1100 Double-sided
Pebbles with 100mm black trim

Horizon Fires apartment living

Horizon fires with their power flue option can be installed into an apartment or homes where a vertical flue is impossible to install.

Horizon Cantilever and Freestander

Cantilevered off the wall to create stunning feature, the Cantilever 700 or 1100 logs, coal or pebble with its hidden gas control technology will make the perfect centrepiece fireplace feature. Or for something just as smart but simpler, a freestanding option will heat 30 square metres.
