COLOUR APPEARANCE

The appearance of colour can change in different lighting environments or when viewed on a screen or in a brochure. For this reason, we highly recommend you view a sample of the product you are interested in before making your final decision.

Colour trends do change and in order to continue supplying our customers with the latest colours and styles, products are sometimes withdrawn at short notice. If this happens, we will always do our best to help you find a colour and pattern you will love just as much.
