Cultured Stone®

WELCOME TO THE NEW STONE AGE

INTRODUCING THE NEW STONE AGE

Stone has been the building block of the family home since civilisation began, from its humble beginnings in prehistoric dwellings to its use as a modern day architectural feature material.

There is no question that stone is loved for its strength, durability and authenticity. It is recognised as a material that adds beauty and character to any space. But despite this, stone can be heavy, difficult to install, expensive and limited in terms of choice.

Boral recognised the opportunity to overcome these issues and has introduced Cultured Stone to Australia. Around for almost 50 years in the US market, Cultured Stone is a manufactured stone cladding product that has all the qualities of traditional stone but with significant added benefits.

Offering a wide variety of colours, shapes and textures, each unit of Cultured Stone is cast in natural stone moulds and meticulously hand coloured to achieve the look and feel of stone. Cultured Stone is lighter in weight and affordable, making it a more accessible material for many.
