Plate Door Furniture

Securafix® Series Plate Furniture

This unique fixing system provides concealed fixing on both sides of the door creating a more pleasing aesthetic whilst increasing the security of the installation. The plate tightening mechanism can be locked to prevent loosening, making Securafix furniture the ideal choice for style, security and durability.

Application

Lockwood 3670 Series Securafix Mortice Latches

Features and Specifications

Handing
All plates and levers are handed and are ordered as half sets.

Fixing
Lockwood plates are designed to fit back to back which are tightened from the front of the mortice lock by a hex key.

Door Thickness
Standard plates suit door thickness between 32 and 44mm.

Refer to ordering procedure on page 3.76 for information regarding plates for use on thicker doors.

Variations

Securafix® furniture is available on 1800 and 2800 Series Brass Plate Furniture.

Plate Door Furniture

Proximity Furniture

Easy to install and operate, Lockwood Proximity Furniture is available in a wide range of stylish levers and finishes to enhance any contemporary building design, bringing a new dimension to commercial security locking solutions.

Proximity Mortice Lock Specifications

- Multivoltage 12-24VDC
- Field selectable fail safe/fail secure
- 60mm backset only

Monitoring

The following monitoring features are standard:

- Dual key override
- Deadlatched and locked
- Door closed
- Request to exit

Proximity Reader Specifications

- HID 125KHz proximity reader
- Wiegand data output
- Supply voltage: 5-12VDC
- Current requirements (stand by/peak) 25/90mA @ 5VDC, 15/125mA @ 12VDC
- Beeper activated when presenting proximity card
- Red/green led indication of reader/lock status

For details refer to 5.44

4800 Series Narrow Stile Plate Furniture

A slimline, rectangular brass plate that adds style to your choice of lever.

Application

Designed for use with Lockwood 3570 Series Mortice Latches (4600/4700) and 3580 Series Mortice Latches (4800/4900).

Note: certain lever designs are not compatible on short backset assemblies due to interference with the door stop. Refer to page 3.80 for lever/backset suitability on 4800/4900 Series Plates.

Features and Specifications

Dimensions

185 x 26 x 11.5mm

Fixing

Plates are designed to fit back to back.
If outside plate is specified with concealed fixing, then the inside plate must be visible fixed.
All lever handles are reversible, except those denoted by*.

Door Thickness

External plates are supplied with fixing screws to suit door thickness between 32 and 50mm.
Refer to lockweb.com.au for information on fixing screw and spindle options for thicker doors.

Plate Door Furniture

Detention Series Furniture – Square Plate

Description

A heavy duty plate designed for use in hospitals and detention facilities. Styled for institutional use, this plate has six fixing points to ensure that it is well secured to the door. Plates are designed to be free of ligature points.

Application

Lockwood 3570 Series Mortice Locks and Lockwood 3579 Secure Area Rated Locks.

Features and Specifications

- Anti-ligature
- Covers fixing holes from existing Artefact 200 Series Furniture
- Detention furniture turns feature a clutching mechanism that allows the cylinder to retract the bolt even if the turn knob is held from the inside.

Dimensions

162mm x 180mm x 2mm: base plate

161mm x 75mm x 3mm: bevelled top plate

Handing

All plates are handed except 220D07 and 220D31, which are non-handed when ordered without engraving.

Materials

Stainless steel

Fixing

- Six fixing points
- 220D series plates have concealed fixings
- 221D series plates have visible fixings

Door Thickness

35mm minimum, 45mm maximum

For thicker doors, longer screws are required.

Note: A minimum door thickness of 50mm is required to fit flush pulls back to back.

Plate Door Furniture

Detention Series Furniture – Rectangular Plate

Description

This smaller plate range has been designed for use in detention facilities such as hospitals where domestic aesthetics are preferred over institutional type styling. Plates are designed to be free of ligature points.

Application

Lockwood 3570 Series Mortice Locks and Lockwood 3579 Secure Area Rated Locks.

Features and Specifications

- Anti-ligature
- Covers fixing holes from existing 212 Series Artefact Plates
- Detention furniture turns feature a clutching mechanism that allows the cylinder to retract the bolt even if the turn knob is held from the inside.

Dimensions

162mm x 76mm x 2mm: base plate

161mm x 75mm x 3mm: bevelled top plate

Handing

Only plates with levers and/or turn knobs are handed.

Materials

Stainless steel

Fixing

- Four fixing points
- 222D series plates have concealed fixings
- 223D series plates have visible fixings

Door Thickness

35mm minimum, 45mm maximum

For thicker doors, longer screws are required.

Plate Door Furniture

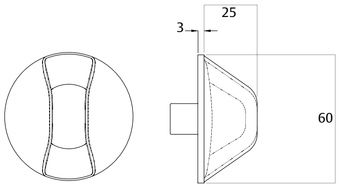
Detention Series Furniture – Accessories

Knobs and Lever

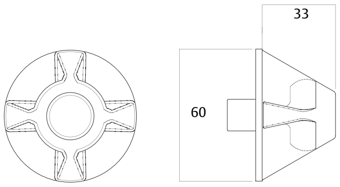
Standard Knob 21

Simple yet functional, this knob has soft edges to minimise impact injuries and anti-ligature features that make it suitable for use in detention facilities.



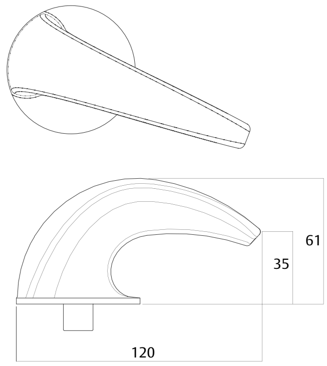
Webbed Knob 22

The webbed knob combines pleasing aesthetics, comfortable grip and anti-ligature features to provide a solution for any environment.



Detention Lever 23

Ergonomically designed to maximise grip, the detention lever is suitable for use in hospitals and minimum security applications. It caters especially for the elderly or people with arthritic conditions.



Turns

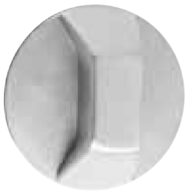
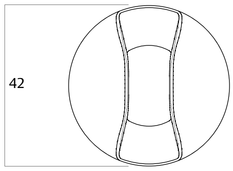
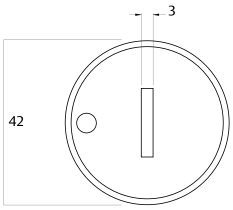
Turn Knob

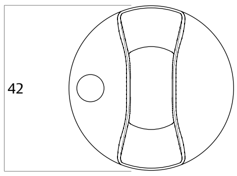




Indicating Emergency Turn



Indicating Turn Knob

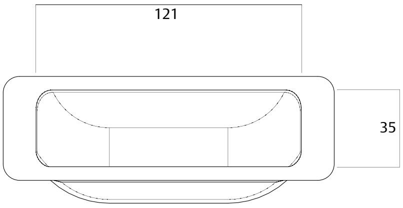


Detention Series Furniture – Accessories

Pulls

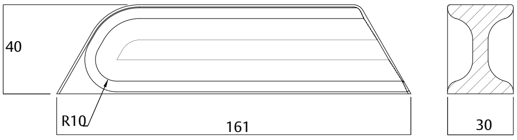
Flush Pull

The detention flush pull has been designed to maximise grip and eliminate the possibility of hiding objects in the cavity.



Standard Pull

The detention pull allows for a firm grip and can be used to open heavy doors. Also designed to be free of hanging points.



Cylinder Guards

Description

Cylinder guards must be fitted with any cylinder plate function. Guards are available to suit different door thicknesses.

Part Number	Door Thickness Suitability
220D00/40SS	Suit doors 35-40mm
220D00/45SS	Suit doors 40-45mm
220D00/50SS	Suit doors 45-50mm
220D00/55SS	Suit doors 50-55mm
220D00/60SS	Suit doors 55-60mm

Fixing Screws

Torx anti-tamper, snake-eye and standard screws are available in accessory packs to suit different door thicknesses. Only standard screws to suit doors 35mm – 45mm thick are supplied with furniture. Other variations need to be ordered separately using part numbers specified.

All accessory packs contain six screws.

Part Number	Description	Door Thickness Suitability
220D11/45	Torx Anti-tamper Screws	35 - 45mm
220D11/55	Torx Anti-tamper Screws	45 - 55mm
