NX SHOWERS

LET FREEDOM RAIN

Refined by design, NX elevates the essential elements of showering. From the award-winning design and engineering team at Phoenix, realise the true freedom of showering when you experience NX. With five unique and exquisite collections, there is something to suit all sensibilities, while delivering equally invigorating and calming shower experiences.

The brand-new additions of Iko and Orli feature HydroSense® – a revolutionary water spray technology from Phoenix's in-house Research and Development team. With HydroSense®, water is transformed. This patented⁺ technology accelerates water flow tenfold, resulting in more even coverage, improved performance in low pressure environments and reduced debris collection within the shower fitting.

The internal engineering ensures a fully immersive shower experience and the sense of total escape.

All NX Showers are backed by a lifetime warranty, which is a testament to their design and engineering quality.

- 607-6500-10 NX Orli Twin Shower - Matte Black
- 118-7800-10 Teel Shower Wall Mixer - Matte Black
- GS811 MB Gloss Double Towel Rail 800mm - Matte Black
- 201-1131-10 PhoenixV Channel Drain Tile Insert 75 x 900mm - Matte Black

THE DESIGNERS

With a reputation for impeccable design, the award-winning NX team worked tirelessly to create products that make choosing the right shower easy.

The NX Showers deliver unique and exceptional coverage, while remaining water efficient and deeply in tune with the Phoenix aesthetic. The three-word mantra of our in-house design team is 'refined, sophisticated and innovative' which has led to our presence on the world stage of international design awards and now, brings NX to you.

HydroSense®

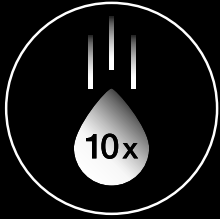

SPRAY TECHNOLOGY

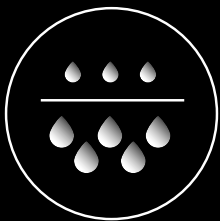

NX Showers with HydroSense® feature ground-breaking spray technology developed by Phoenix's in-house design and engineering team. With HydroSense®, water is transformed. Inspired by nature, our patented+ HydroSense® Technology delivers curved sheets that multiply into dense, cascading droplets. The addition of quality brass components and elegant fixings ensures a lifetime of luxury whilst the internal engineering creates a fully immersive showering experience.

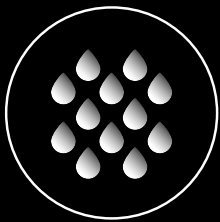

Structural advantages: Conventional shower nozzles generally have a stepped cavity flow path. Stagnation and recirculation occurs as a result, reducing the exit flow speed. NX with HydroSense® has a specially designed, streamlined flow path that makes the flow speed 10 times higher than that of a conventional shower. The water flow is split into individual water channels that feed into large volume atomising nozzles. These unique nozzles disperse the large water droplets evenly, providing a full-bodied shower that uses a minimal amount of water, even at low pressures.

IKO

with **HydroSense** TECHNOLOGY®

Slender and elegant in appearance, Iko is a design stripped back to allow for simplicity and clean lines. With all elements speaking to each other, the Iko shower is a harmonious presence and assured focal point in any bathroom interior.

NX IKO HAND SHOWER with HydroSense®

608-6610-00

3 Star - 8lt/min

REG No. S1 3463

- Push-fit adapter suitable for existing 1/2" connection with no drilling required
- Metal hand piece with insulated sleeve for minimal heat retention
- Quality brass bracket
- 120mm hand piece
- Easy-clean flexible smooth hose
- Concealed hose connection
- Available in Chrome (shown) and Matte Black (608-6610-10)

**NX IKO
SHOWER ARM & ROSE**
with HydroSense®

608-5100-00
3 Star - 8.5lt/min
REG No. S13466

- Easy installation with push-fit adapter suitable for existing 1/2" connection
- Large 250mm shower head
- Brass arm
- Available in Chrome (shown) and Matte Black (608-5100-10)

**NX IKO
TWIN SHOWER**
with HydroSense®

608-6500-00
3 Star - 8.5lt/min
REG No. S13465

- Top inlet rotary water diverter; fits to existing 1/2" connection
- Adjustable bottom pillar for flexible mounting
- Brass components for product longevity
- Easy to operate brass slider for hand piece height adjustment
- Metal hand piece with insulated sleeve for minimal heat retention
- 120mm hand piece
- Large 250mm shower head
- Easy-clean flexible smooth hose
- Concealed hose connection
- Available in Chrome (shown) and Matte Black (608-6500-10)

**NX IKO
RAIL SHOWER**
with HydroSense®

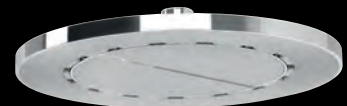

608-6810-00
3 Star - 8lt/min
REG No. S13472

- Easy installation with push-fit adapter
- Brass components for product longevity
- Easy to operate brass slider for hand piece adjustment
- Metal hand piece with insulated sleeve for minimal heat retention
- 120mm hand piece
- Easy-clean flexible smooth hose
- Concealed hose connection
- Available in Chrome (shown) and Matte Black (608-6810-10)

**NX IKO
SHOWER ROSE**
with HydroSense®

608-5000-00
3 Star - 8.5lt/min
REG No. S13473

- Fits to all standard 1/2" shower arms
- Large 250mm shower head
- Available in Chrome (shown) and Matte Black (608-5000-10)

**NX ORLI
SHOWER ARM & ROSE**

with HydroSense®

607-5100-00

3 Star - 8lt/min

REG No. S13467

- Easy installation with push-fit adapter suitable for existing 1/2" connection
- Large 290 x 210mm shower head
- Brass arm
- Available in Chrome (shown) and Matte Black (607-5100-10)

**NX ORLI
TWIN SHOWER**

- Brass components for product longevity
- Easy to operate brass slider for hand piece adjustment
- 100mm hand piece
- Easy-clean flexible smooth hose
- Concealed hose connection
- Available in Chrome (shown) and Matte Black (607-6810-10)

ORLI

with HydroSense[®] TECHNOLOGY[®]

With a focus on contemporary design, Orli was created with soft square detailing and flush design features at its core. Positioned as if floating against the wall, Orli is sleek and solid in appearance.

CAPE

With a contemporary rectangular design edge, Cape offers a strong and immersive showering experience that will relax your body and your mind. The refined design is punctuated by sophisticated details and low-profile nozzles that provide an eco-friendly, yet enveloping cleanse.

QUIL

Distilled to its fundamental elements with refined surfacing and thoughtful design, Quil affords any bathroom a sense of simple and stylish elegance. Providing a dense droplet-like experience, the shower becomes something to be savoured. While its sophisticated nozzles give the water a spa-like sensation, our commitment to water efficiency remains.

+ Coming soon

VIVE

The Vive range is intensely modernist in its design approach, offering a collection that will fuse seamlessly with any modern interior, especially those wanting to push the limits beyond trend. The sophisticated nozzle design delivers a streamlined and invigorating showering experience despite its economical use of water.
