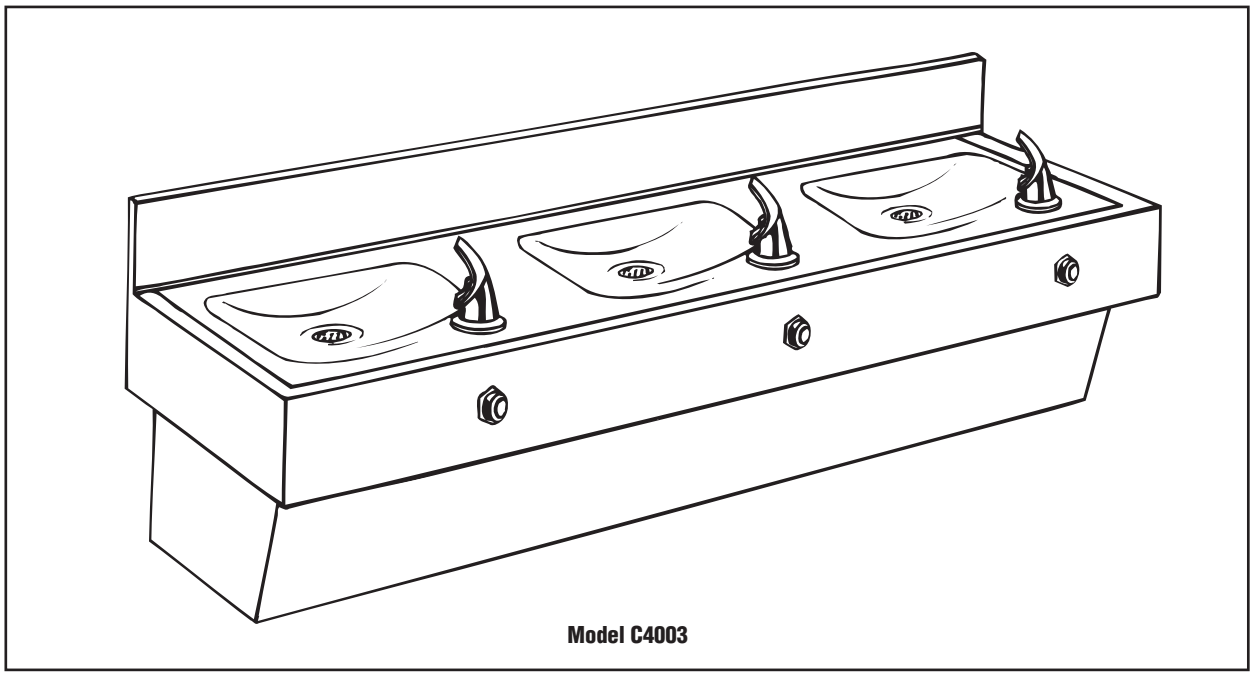
WALL MOUNTED MULTIPLE STATION DRINKING FOUNTAIN



Model C4003

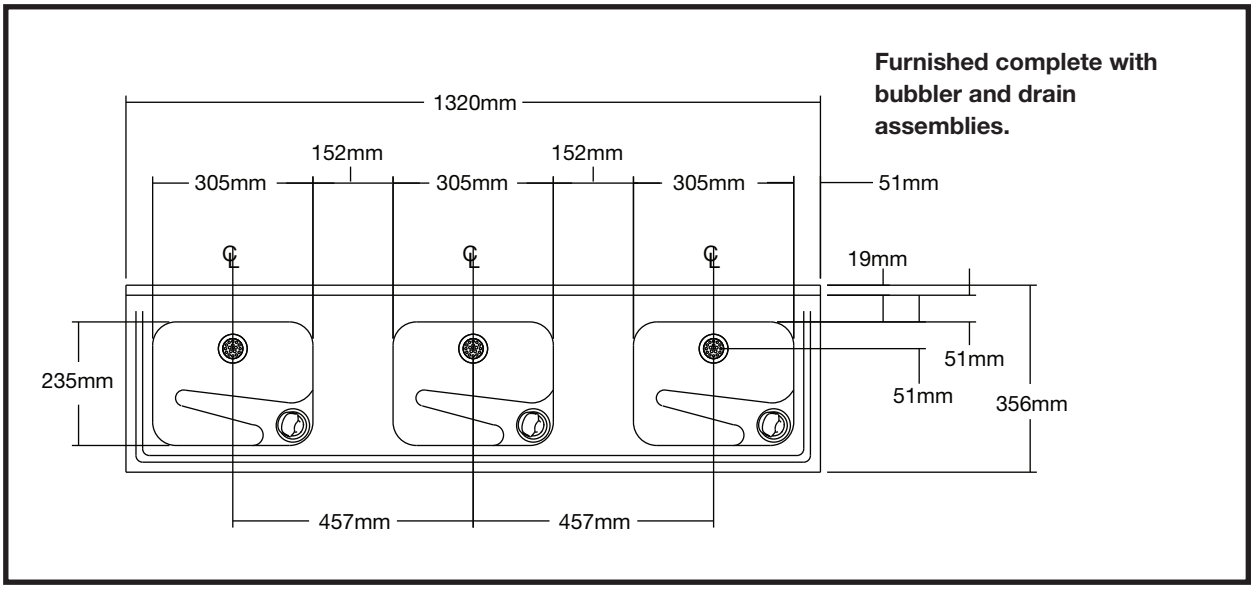
General

#18 gauge, type 304, nickel bearing stainless steel wall mounted multiple station drinking fountain – designed to meet all sanitary codes. Unit has stream splitter design basins with perforated grid strainers. Hooded stream projectors have in-line flow regulators – 20 to 105 psi. Separate push button controls are mounted on front. Exposed surfaces are hand blended to a satin finish. Wall hanger furnished.

Construction

Furnished complete with bubbler and drain assemblies.

Exclusive Flexi-Guard® Safety Bubbler*: Innovative design utilizes a pliable polyester elastomer to prevent accidental mouth injuries. Flexes on impact, then returns to original position. Strong. Abrasion-resistant. Anti-sweat.



As improvements in the design and performance of RBA products are continuous, specifications may be subject to change without notice.
