Croplands

“For centuries, agriculturalists have prepared fertile terrain by tilling the earth before planting their crops. This age-old practice creates a charming multi-layered organic texture, one that I found intriguing and inspired the design concept for Croplands”

A collection based on the foundation of earth tones, accented with the vibrancy of color to which nature effortlessly paints the landscape as crops come to life. Croplands allow modules to work independently or in harmony with each other to any interior space.

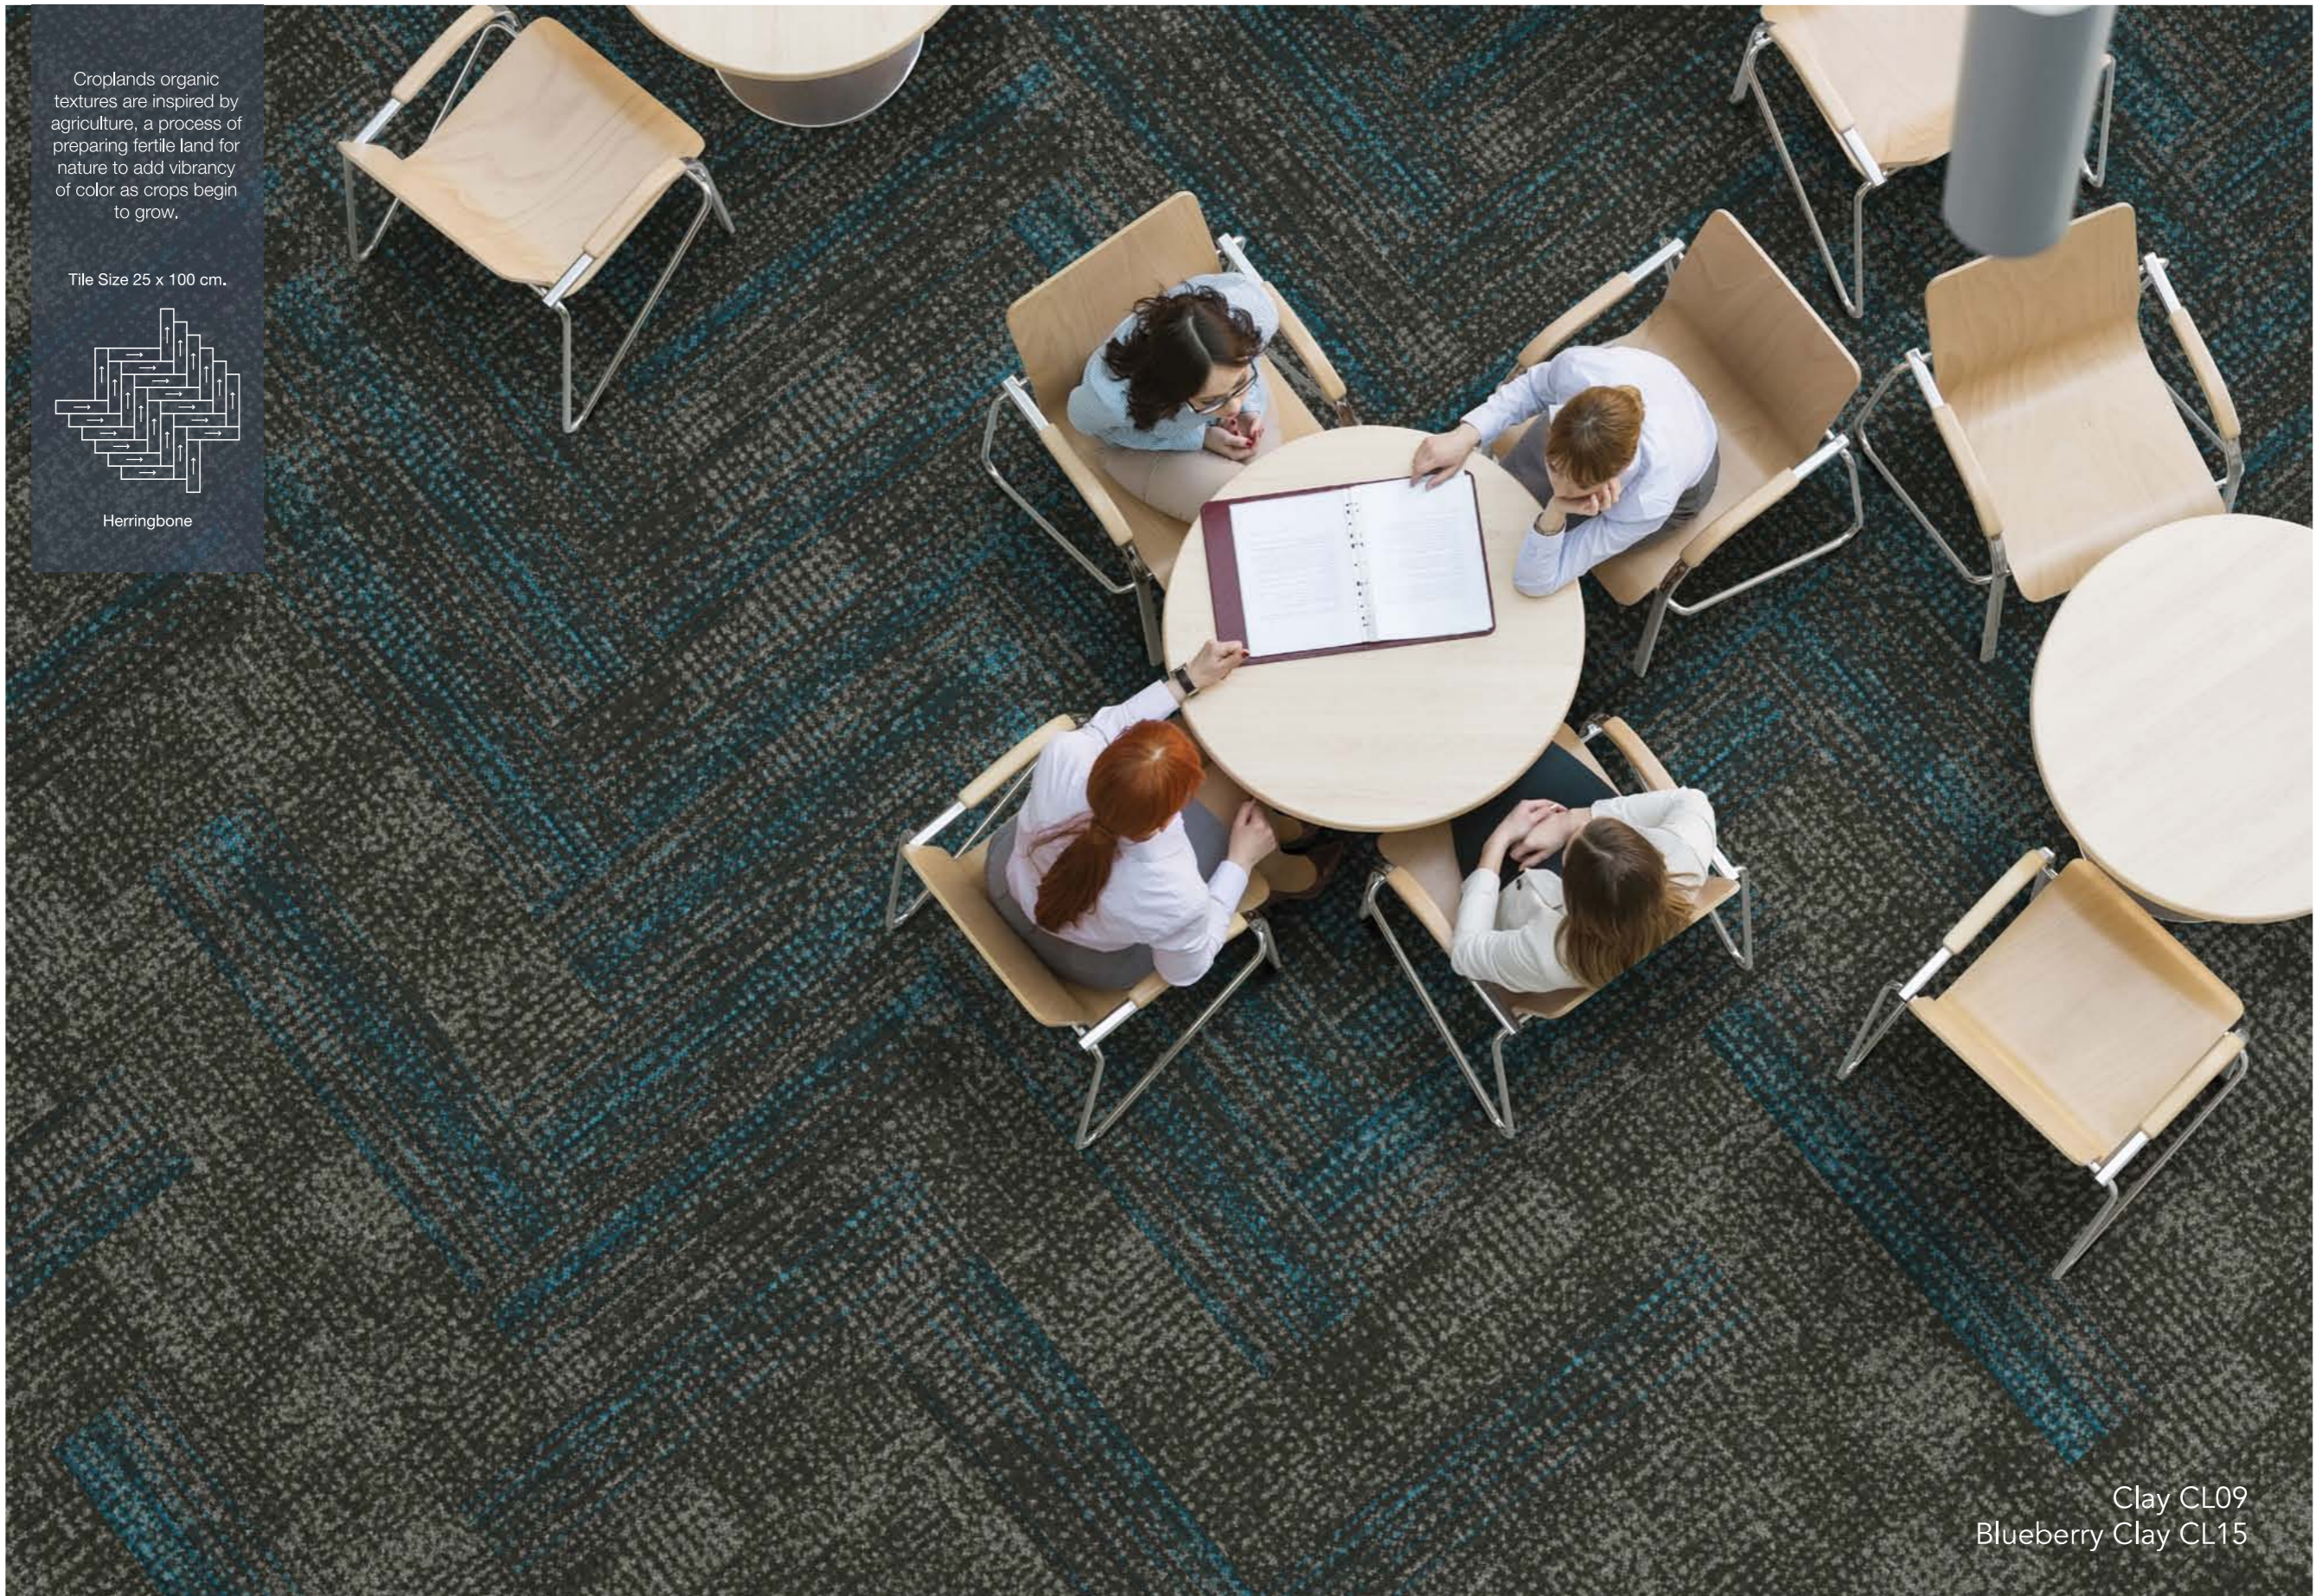

*Designed and engineered for performance
by the CI Design and Product Development team.*

Croplands organic textures are inspired by agriculture, a process of preparing fertile land for nature to add vibrancy of color as crops begin to grow.

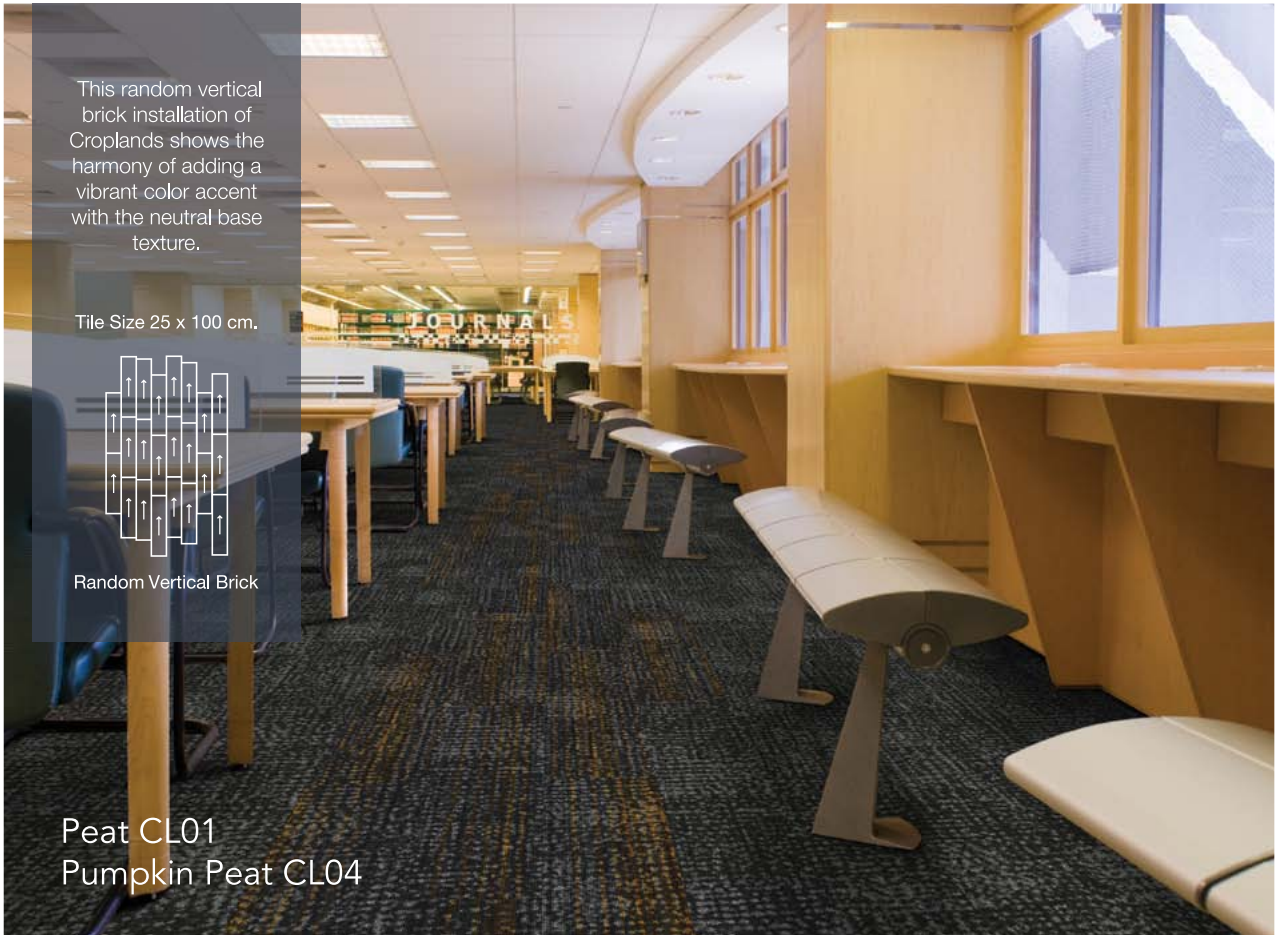

Tile Size 25 x 100 cm.

Herringbone

Clay CL09
Blueberry Clay CL15

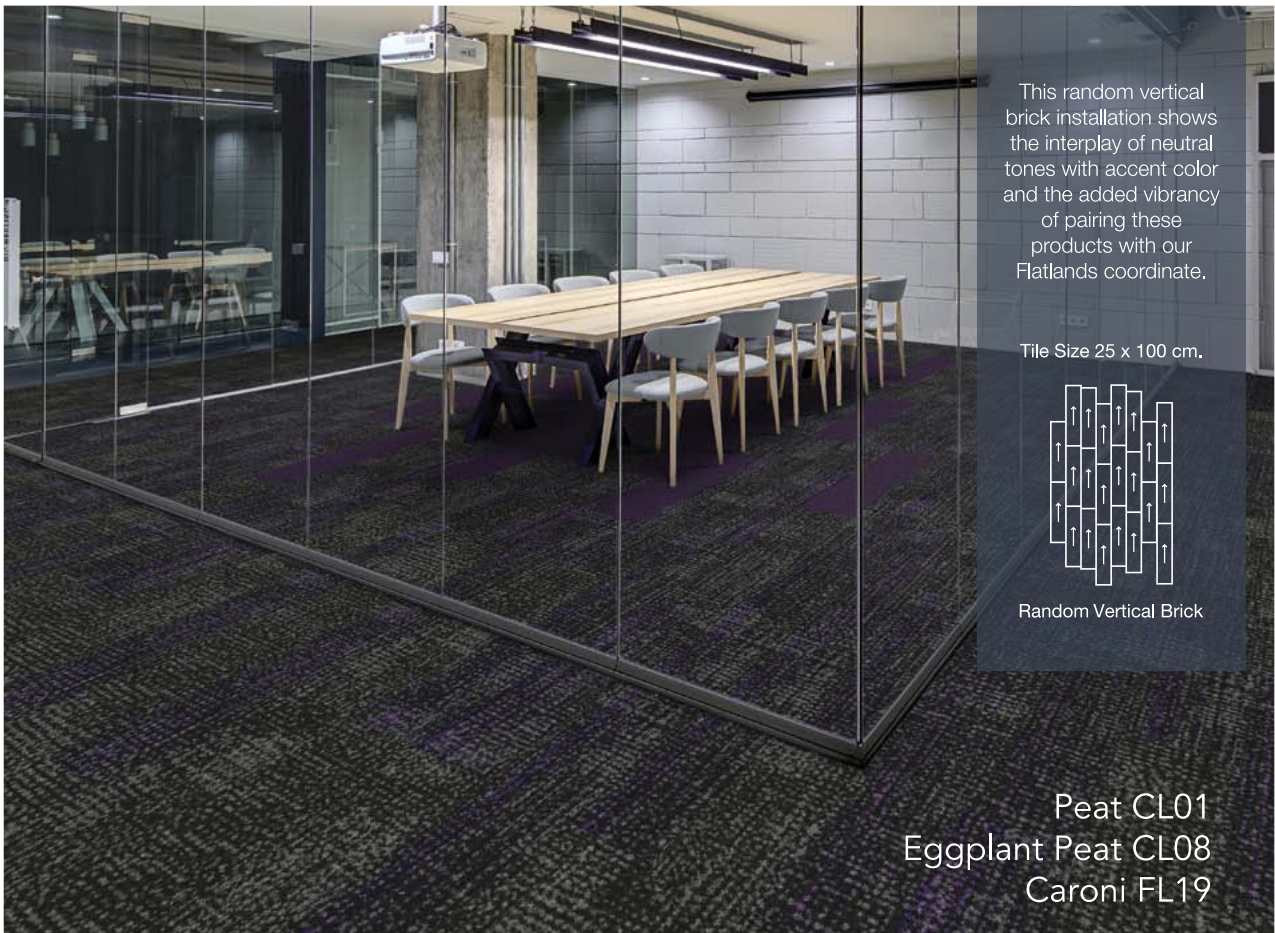

This random vertical brick installation of Croplands shows the harmony of adding a vibrant color accent with the neutral base texture.

Tile Size 25 x 100 cm.

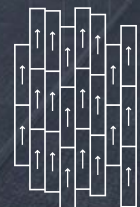

Random Vertical Brick

Peat CL01
Pumpkin Peat CL04
