

The Aquafil Hydrobank is our largest wall-mounted drinking fountain & bottle refill station, which is distinguished by its numerous water access points.

The product features three anti-bacterial bottle refill nozzles as well as three drinking fountains, with an optional inbuilt filter and/or chiller. Its scale, durability and economical performance make the Aquafil Hydrobank an ideal solution for school campuses and busy sporting complexes.

Product features

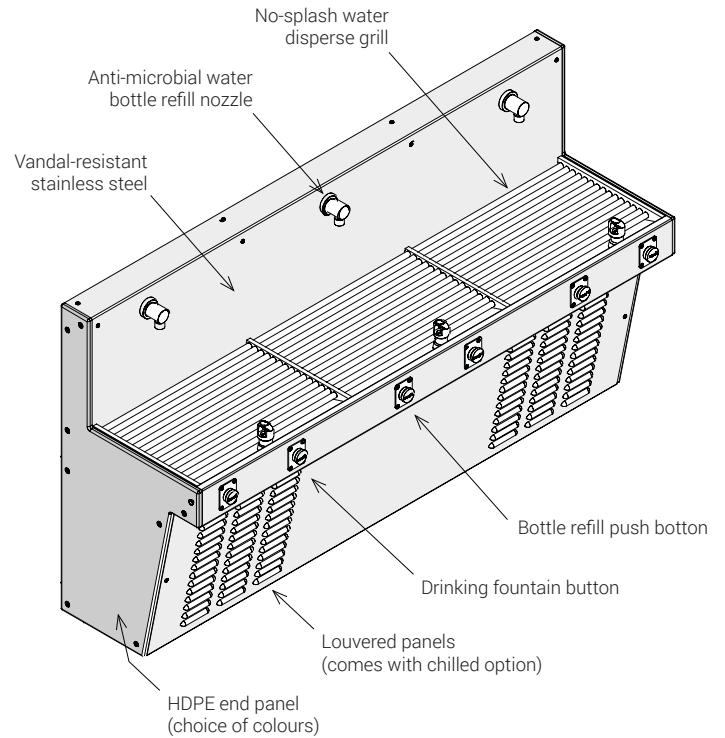

- Three anti-bacterial bottle refill points
- Three drinking fountains
- Durable stainless steel construction
- Robust, vandal-resistant design
- Coloured end panels made from high-density polyethylene

Additional Options

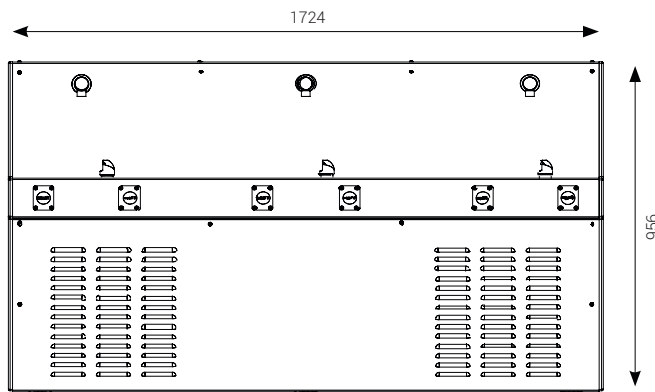

- Optional inbuilt water filter
- Optional inbuilt water chiller
