100% Flexibility

Unobtrusive in design, the Stopline E60 fixed fire rated window system is designed to be an aesthetic way to protect your windows close to boundaries.

Made to measure, **there are also a multitude of glazing options to meet all your U-Value, SHGC etc requirements, from double glazing to Low-e glass or films.**

The Stopline E60 system has been full scale fire tested in strict accordance with AS1530.4.

Glass is a grade A toughened Safety glass in accordance with AS1288.

Stainless steel framing can be provided for buildings within 5km of the ocean.

Framing can be powder coated any colour in the Dulux Duralloy range to match clients tastes and building façade. Other power-coat colours and systems are available on request.

Full certification issued with installation.
