

**Au.diBoard VoglFuge®** Continuously

Perforated Flush Jointed Plaster Ceilings

Acoustic design ceiling solution to meet highest demands in function and aesthetics

**Atkar**  
beyond expectations

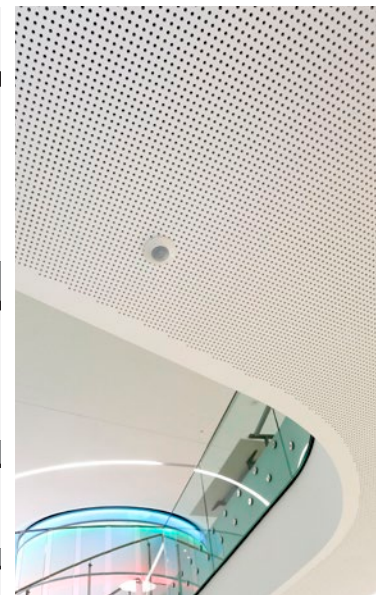

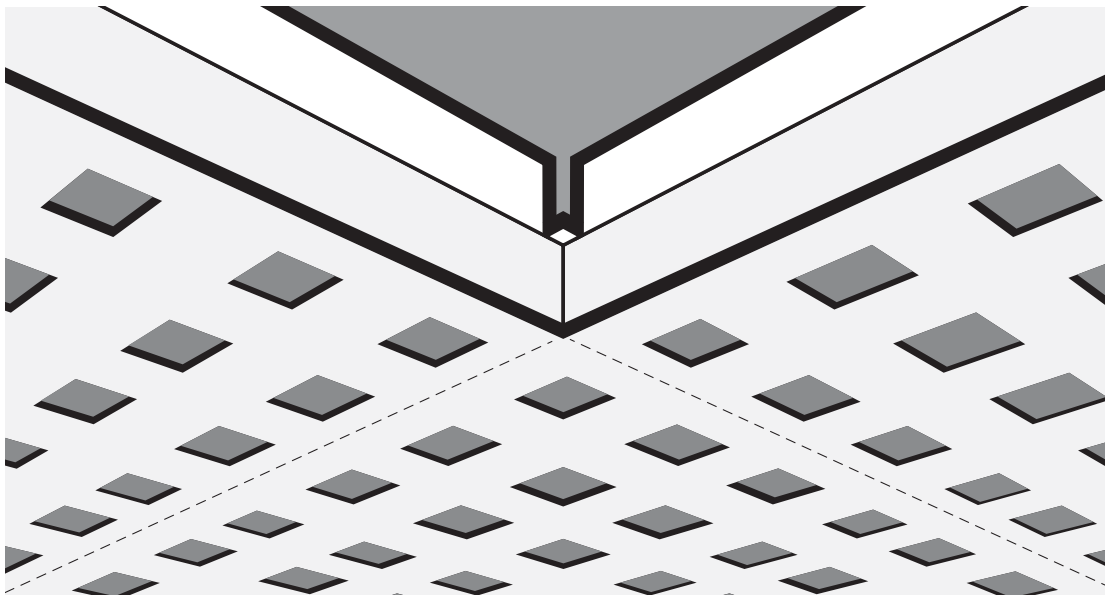

# Au.diBoard VoglFuge®

acoustic and architectural panel solutions  
lining, cladding and ceiling systems  
site and construction products

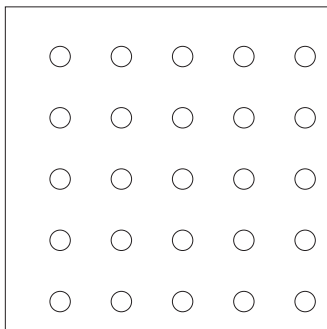

A unique, continuously perforated flush jointed plaster ceiling solution, VoglFuge acoustic design ceilings meet the highest demands in function and aesthetics for drywall construction. Realise your ceiling design with a solution that particularly benefits high traffic areas by absorbing ambient noise.

**The VoglFuge system delivers stunning, continuously perforated acoustic ceilings efficiently, economically and with the most reliability during installation for guaranteed results.**

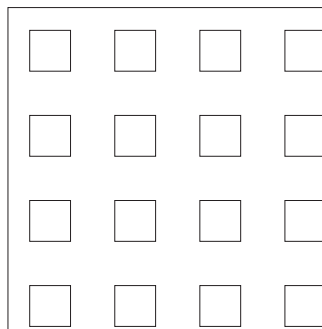

- Available in a wide range of perforation patterns
- Install ceilings without filler.
- Maximum crack resistance
- Quick mounting of panels – ‘edge-to-edge’.
- No more complex aligning of panels.
- Quickest possible joint finishing with the unique patented VoglFuge system.
- Significant time saving due to short installation and drying times.
- Maximum crack resistance.
- Less dust and moisture.

**pattern 6/18R**  
dimensions: 1188 x 1998 x 12.5mm  
perforated area: 8.7%  
mass per unit area: 9.1kg/m<sup>2</sup>

**pattern 12/25R**  
dimensions: 1200 x 2000 x 12.5mm  
perforated area: 18.1%  
mass per unit area: 8.2kg/m<sup>2</sup>

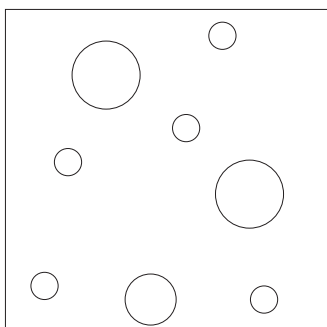

**pattern 12/25Q**  
dimensions: 1200 x 2000 x 12.5mm  
perforated area: 23.0%  
mass per unit area: 7.7kg/m<sup>2</sup>

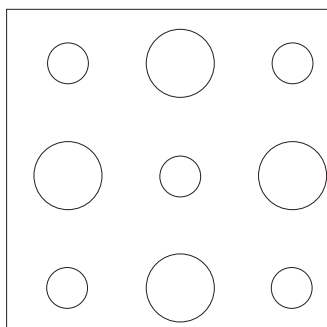

#### Finish Options

- Raw – coated on site
  - Undercoated – top coat applied on site
- Please Note: VoglFuge should be roller coated with short nap roller and not spray finished as any coating of Integrated Acoustic Backing (IAB) will impede or even eliminate the acoustic performance of the panels.

**VoglFuge is an unrivalled solution. For more information or to request a presentation on Atkar's complete product range, call 03 9796 3333**

**pattern 8/15/20R**  
dimensions: 1200 x 2000 x 12.5mm  
perforated area: 9.5%  
mass per unit area: 9.1kg/m<sup>2</sup>

**pattern 12/20/66R**  
dimensions: 1188 x 1998 x 12.5mm  
perforated area: 19.6%  
mass per unit area: 8.0 kg/m<sup>2</sup>
