THE PEAK OF PERFECTION

Some roofs say more.

About you.

About your style.

About the home that uniquely showcases your life.

Grand Manor says it all with a style and grace that is exceptional from every angle. The luxurious multi-layered laminated shingle replicates the look of slate with the confidence backed by a lifetime warranty.

Your home becomes your castle with one of the heaviest shingles we've ever made. CertainTeed has developed Grand Manor to endure wind, rain and weather of every sort to always look its best, even on the steepest slopes.

a GRANDMANOR™ showcase

striking looks

Deep shadows and random tabs are the secrets behind the design genius in Grand Manor. The result is a shingle with the incredibly authentic depth and dimension of slate. And generations of durability to complete the illusion.

lasting beauty

Our exclusive Super Shingle® construction design results in a shingle that, once installed, offers virtually five layers of protection.

Made of the industry's most durable roofing materials, you'll have a roof with unsurpassed defense against the elements.

An important feature, StreakFighter™ is a special manufacturing process used to protect your shingles from the streaking and discoloration caused by airborne algae.

With Grand Manor on your home, you'll have the assurance of being protected by one of CertainTeed's finest, most durable luxury shingles—and the confidence of knowing that whenever you look up at your roof, you'll see something beautiful.

tips for selecting a roof

- 1.** Think big – View a full-sized shingle, not just a swatch or sample.
- 2.** Be real – Look at actual houses where the house and roof color combinations are similar to what you're considering.
- 3.** Watch the light – As you look, notice how colors appear under changing light conditions and at various times of day.
- 4.** Consider the pitch – Look for roofs with a similar pitch to your own. A roof's pitch affects the way you see its color.
- 5.** Ask your friend – They might be able to point you to a home where they've installed a roof of your style and color.

Integrity Roof System™

A systems approach combines high-performance components – underlayments, shingles, accessory products and ventilation – to make the Integrity Roof System a complete roofing solution. When you choose an Integrity Roof System, you gain the advantage of having CertainTeed as your single manufacturing source to stand behind its roof system components.

Hip & Ridge Accessories

Accessory shingles are used to finish the hips and ridges of the roof and are designed to complement the appearance of CertainTeed shingles.

CertainTeed Shingles

High-quality shingles available in a wide variety of styles and colors, covered by the strongest warranty in the business. Flintlastic® roll roofing products are also available for flat roof areas.

Roofers' Select™ or DiamondDeck™

High-performance underlayment provides a protective water-resistant layer over the roof deck and a secondary barrier against leaks.

WinterGuard™

Waterproofing shingle underlayment prevents leaks from wind-driven rain and ice dams in vulnerable areas.

Starter Shingles

Starter shingles are designed to work specifically with each different type of CertainTeed shingle for maximum performance.

We've put green thinking behind our shingle and environmentally sound manufacturing ahead of standard industry practices to produce a product line that is green and growing.

CertainTeed is committed to resource conservation. Our roofing manufacturing facilities recycle close to 90% of the production waste into asphalt materials used for the construction of roads. We also integrate recycled content into many of our packaging needs including corrugated rolls and kraft paper.

They're small steps in a big world. But we're green and growing everyday. It's a commitment we take seriously at CertainTeed.

not sure which color to pick?

CHECK OUT CERTAINTEED'S COLORVIEW.™

ColorView™ is CertainTeed's interactive tool to help you visualize product style and color options. Using it is easy. Just go to www.certainteed.com/colorview.

easy selection

What's behind our #1 rating?

Builders and remodelers across America know certain things to be true of CertainTeed. For starters, we've been in the roofing business for over 100 years. We have thousands of satisfied homeowners. The process of building that satisfaction begins the moment you turn to us.

CertainTeed offers you the broadest range of color and style choices. But you'll see it's not style over substance. You'll get a roof that's made from the highest quality materials and backed by a strong warranty program. It's our promise to you: quality made certain, satisfaction guaranteed.

Add a little accent to your roof.

For a finishing touch to cap hips and ridges, use Shingle Ridge™ accessory—available in colors to match your Grand Manor shingles. For the best performance, use CertainTeed High-Performance Starter—the only approved installation alternative to using the shingles themselves.

#1 rating

long-term protection

Reaching for the ENERGY STARS.

As a 2011 ENERGY STAR Sustained Excellence

recipient for Energy Management, we are proud of our commitment to designing high quality, sustainable roofing products.

Color Companion Products™

With CertainTeed Flintlastic® SA, you can coordinate flat roof areas like carports, canopies and porches with your main roof. Flintlastic SA is a self-adhering low slope roofing product available in eight colors that match some of the most popular CertainTeed shingles. Ask your contractor for more information.

Lifetime limited transferable warranty, including 10-year SureStart™ protection, is applicable only in the United States, its territories and Canada; for products sold outside these areas, please refer to the International Warranty for specific details and limitations.

WARNING: FOR LOW-VOLUME RAIN AND SALT-FOG AREAS
In areas of low-volume rain (defined as insignificant rainfall during 90-day period) and "salt fog," such as parts of the Southern California coastline, copper released by algae-resistant (AR) granules can react with the aluminum in gutters, leading to severe corrosion of the gutters. Therefore, in such regions, it is strongly recommended that aluminum gutters not be used with algae-resistant shingles. Vinyl or copper gutters are recommended.

NOTE: Due to limitations of printing reproduction, CertainTeed can not guarantee the identical match of the actual product color to the graphic representations throughout this publication.
