# About Evergreen Walls

---

As Australia's number one greenery expert Evergreen Walls manufacture and supply artificial green wall panels and systems used for external facades, internal walls and even ceilings.

At Evergreen Walls, we've worked hard to create a solution that allows you to readily add beautiful greenery to any space. Our artificial wall gardens are a great way to provide some additional life to any wall - be it a home or commercial space, both internal and external.

Evergreen Walls also takes safety very seriously. As well as warranties on all of our products, we have sought to attain a formal fire certification so that architects, builders and specifiers can be confident that the decorative products they select are compliant and safe to use. Our flagship product has been tested in accordance with AS ISO 9705 - 2003 and AS 5637.1:2015.

Our artificial green wall panels allow consumers, designers and building professionals to install greenery in a wide range of locations that don't necessarily lend themselves to natural plant growth or maintenance.

With clients all over the world, our innovative green walls systems are available locally and internationally through a significant distribution footprint. Evergreen Walls is an agile and professional business that works to add value by solving defined client needs and project requirements.

# Modular Greenery, Made Easy

## DESIGN VERSATILITY

From classic vertical gardens to a more contemporary eye-catching look, it's ultimately up to you how you use our green wall systems. Our pre-fabricated, modular range of green wall options can be used on so many wall spaces, you're only limited by your own imagination. Choose a look and run with it.

## EASY SPECIFICATION

Pre-fabrication makes the entire building process fast and simple compared to traditional construction methods. Our products come pre-made so require less installation time. The modular panels are easy to build and fit together requiring fewer nails, screws and other add-ons. For certain systems Evergreen Walls also provide our very own proprietary fixings.

## DURABILITY

Evergreen Walls makes durable green wall panels that are easy to use in any commercial design and built to last. Whatever look you choose, you know you're getting the strength and durability your clients deserve that will last for many years to come.

## PEACE OF MIND

Evergreen Walls modular green wall products are developed and manufactured to suit Australian or International Standards. There is a perfect green wall system for every project and with warranties and fire certificates you know can rest easy knowing you've made the right choice.

# The Benefits

---

## **COST**

Our realistic product not only never dies but will cost less than HALF the cost of a real set up. Don't forget no on going costs either.

## **NO UV LIGHT**

There is no need to replace or add UV lighting like you do on real walls, our artificial garden walls will last forever.

## **NO IRRIGATION**

Avoid huge irrigation set ups or daily hassles of watering your plants. Once your walls is installed there is nothing left to do.

## **MAINTENANCE FREE**

With artificial green walls the only maintenance you need to do is clean your plants with a damp cloth, or let the rain clean it for you. Simple.

## **NO DEAD SPOTS**

Plants aren't designed to live indoors and dead spots occur and these issues happen frequently. Not with Evergreen.

## **PERSONALIZE IT**

Our panels are easily upgraded, meaning you can add extra flowers or plants to make your wall unique to you.

## **INDOOR & OUTDOOR**

We have panels for indoor and outdoor areas. You can put our product almost anywhere you like.

## **INSTANTLY GREEN**

With the real walls, it usually takes weeks for the plants to grow full size, ours come with instant, and permanent results.

## **REALISTIC**

We only use high quality artificial plants, this ensures a realistic look which will be hard to notice by your admirers.

# Industry Fire Concerns

## STATE OF FIRE SAFETY IN AUSTRALIA

Fire safety has always been an important consideration for Australians, but with recent tragedies like the Grenfell Building fire in the United Kingdom, questions are being asked about the fire safety of residential and commercial building materials.

### GENERAL FIRE INCIDENTS IN NSW STATISTICS

**1400**

buildings in Victoria have dangerous flammable cladding

**8**

hospitals have non-compliant cladding in Victoria

**Over 1011**

buildings contain dangerous flammable cladding in NSW

### MATERIALS & FIRE SAFETY STATISTICS

**Over 100,000**

incidents happen every year in NSW alone

**30%**

of fires in NSW are vegetation fires

**20%**

of fires in NSW are building fires

**Over 1000**

fire-related injuries happen in NSW each year

# Our Fire Rating

## TEST MEASUREMENT

The National Construction Code of Australia and AS 5637.1:2015 allow the classification of materials by Group Number, which indicates the amount of time taken for the material being tested to reach flashover under AS ISO 9705 - 2003 test conditions. The NCC and AS 5637.1:2015 define flashover to be a Heat Release Rate of 1 MW.

The NCC and AS 5637.1:2015 also define the smoke growth rate index, or SMOGRA, as a quantity which may be obtained from the smoke obscuration measurements obtained in the AS ISO 9705 test.

Other metrics also measured in the test include:

- Heat flux measurements
- Volume flow rate measurements
- Heat release rate measurements
- Carbon monoxide production rates
- Carbon dioxide production rates
- Light obscuration measurements

## TEST FINDINGS

The Evergreen Panel product subjected to the Reaction to Fire test achieved a formal **Group 2** certification, which is the second-highest Group Number under the NCC and AS 5637.1:2015 scheme. The Evergreen Panel was thus deemed safe to install in residential and commercial buildings, anywhere other than a fire escape.

**The Evergreen Panel was thus deemed safe to install in residential & commercial buildings**

## THE HIGHEST QUALITY PANEL ON THE MARKET

An architecturally designed system with commercial grade materials makes the Evergreen Panel the ultimate in artificial green walls. The fire-rated foliage is installed to look like it's growing across the wall and is alive with elegant vibrancy. Relatively lightweight and easy to specify into any project - it's a dream for building designers and clients alike.

## OUR STYLES

# Evergreen Premium

## BENEFITS & SPECIFICATIONS

12 different types of UV & fire treated plants

Each style comes with a separate set of curated plants for personal positioning

3mm galvanized steel frame powder coated black

Plants securely cable tied to metal grid

Custom made stand off fixings supplied with each panel

### FIRE-RESISTANT

Australia's only group 2 fire rated panel.

### UV STABLE

Our panels are made with a UV stabilised polyethelene. There is no need to replace or add UV lighting like you do on real walls, our artificial garden walls will last forever.

### MAINTENANCE FREE

Once installed, there is no need for additional power for lights, irrigation systems or call out fees to maintenance. The only upkeep you need to do is clean your plants with a damp cloth, or let the rain clean it for you. Simple.

### WARRANTY

For peace of mind, we offer a 4-year warranty on selected products. This covers UV damage, fading or cracking.

# Evergreen Moss

## ACCOUSTICALLY BRILLIANT

This beautiful, natural product is a premium wall covering option for those that want to inject a level of luxury into their project. This slow-growing 'moss' is farmed from Scandinavian forests before a unique preservation process secures its longevity as a decorative product. Soft to touch and easy on the eye, The Evergreen Moss is an enchanting, modular way to create a fabulous feature for any interior space.

## OUR STYLES

# Evergreen Moss

## BENEFITS & SPECIFICATIONS

Choice of 6 colours

Cladonia Stellaris Reindeer Moss hand-picked from the forests of Scandinavia

Panels can be cut to size by trimming the ACM backing

ACM backing board for added strength. Contact us for curved applications

Fixed mechanically or glued onto the wall surface

### FIRE-RESISTANT

Evergreen Moss panels are flame and fire-resistant (for internal use only).

### HYPOALLERGENIC

Evergreen panels do not contain toxic chemicals or components.

### ECO FRIENDLY

Once installed, there is no need for additional power for lights, irrigation systems or call out fees to maintenance.

### AIR PURIFYING

Air particles are removed by a constant cycle of absorption and release of ambient moisture.

### SOUND ABSORBER

Absorbing up to twice as much as the industry average for products of the same size and thickness.

### WARRANTY

For peace of mind, we offer a 4-year warranty on selected products. This covers UV damage, fading or cracking.
