*Manor Handle Collection*

## *Diamond pattern and handle in neat harmony*

---

The diamond pattern on these knobs and handles sets the tone in a narrative firmly founded on warmth and exclusiveness.

Each knob and handle in this range features the distinctive diamond patterned surface which, in addition to assuring an exceptionally good handle, presents an exclusive expression that is further highlighted by the attention to detail on both knobs and handles.

It is actually the details on the knobs and handles that elevates these designs from the industrial genre, positioning them in a narrative of something more machined and refined – which is precisely what Jakob Kamper, the designer, intended.
