

LIFTRONIC

Vehicle Lift

Liftronic Vehicle Lifts are a convenient way to move vehicles throughout your building without the use of ramps.

In major cities where space is at a premium, designers strive for solutions that increase letable space while decreasing capital costs. One such solution is the Liftronic Pty Limited Vehicle Lift.

"Elevate your Expectations for Creative Lift Solutions"

Liftronic Pty Limited: The largest Australian Owned Lift Company

THE LIFTRONIC VEHICLE LIFT BENEFITS ARE:

Load of 3000kg PLUS

Compliance with AS1735 (Vehicle Lift classification)

The Liftronic Vehicle Lift will allow for the provision of additional car parking spaces to comply with Council D.A requirements

Reduces Building and Construction costs by eliminating car parking ramps

Designed for ease of operation

Suitable for most commercial, domestic & residential applications

❖ HOW IT WORKS

- » Drive in
- » Turn off engine
- » Remain seated
- » Select desired floor destination
- » Drive out

❖ DESIGN FLEXIBILITY

The Liftronic Vehicle lift allows for customisation and design flexibility within the parameters of regulatory standards.

Our friendly staff are willing to assist you in designing the most cost effective solution for your project.
