

High performance reverb absorption

PQ Panels

PQ Panels combine proven open cell acoustic foam with near noise neutral decorator fabrics to give highly effective reverb absorption in recording studios, video conference rooms, board rooms, home theatres, restaurants and wherever noise reverb is a problem.

PQ panels are designed to be easily fixed vertically to walls or suspended horizontally from ceilings. They come with hanging eyes and isolation pads for you to hang or Peace and Quiet professional installers to install.

Choose from 30 colours in 100% pure new open weave wool fabric, fire rated to AS1530-1.2.3.
