

Structural Timbers

Nullarbor Sustainable Timbers have specialized in recycled and sustainable Timbers for over 30 years. Currently holding Australia's largest stockpile of structural and architectural timbers.

Our recycled and salvaged timbers have features and textures that only mother nature and time can fashion!

Imagine having a piece of Australian history within your own home or commercial residence that once held up the Melbourne Wharves or the Port Adelaide Wool Stores for more than 100 years.

Already in our yard, our timbers are ready for us to process to your individual needs and deliver.

Anything you imagine we can create together!

Posts Range from 150mm x150mm up to 400mm x 400mm

Posts are available as

- Recycled "clean" - Dressed All Round
- Recycled "Rustic" - "As is" or sanded
- Salvaged "New"- Dressed All Round

Species available include

- Iron Bark
- Spotted Gum
- Blackbutt
- Tallowwood
- Turpinetine
- W.A Karri and more
