situation: Studio fitout for Channel 9's new Adelaide headquarters. **solution:** Acoustic absorption was paramount in this environment of polished concrete and timber surfaces. Atkar's VoglFuge perfectly absorbs the busy dynamics of key staff areas. Collaborating closely with Capsule Projects, Atkar devised an acoustic ceiling that flows seamlessly throughout the large open studio spaces. Further delivering beyond expectations to satisfy the architect's brief, custom lighting and services are perfectly integrated into the random perforation pattern – VoglFuge pattern 8/15/20R.

- 1_ Delightful café ambience
- 2_ Quiet meeting place
