***Overview of Products & Services***

Industry leader in manufacturing and installing seamless floors & hygiene fit-outs to the Food, Beverage and Pharmaceutical Industries of Australia.

## INDUSTRY SPECIALISTS

---

Allied Finishes is a family business that has a history in coatings dating back to the 1970s.

With a background in formulating and manufacturing premium two-pack coatings, we began as flooring installers to all industries. However, in the last two decades, we recognised the particular challenges and issues faced by the food, beverage, and pharmaceutical industries in regards to flooring, drainage, and hygiene enforcement installations.

Allied Finishes specialises in these sectors with solutions that are:

- *Food/ pharmaceutical grade* – hygienic, with particular emphasis on anti-bacterial and anti-viral elements
- *Durable* – designed to withstand chemical, temperature, and mechanical stresses
- *Safe* – partnering with our clients to further worker health and safety

With our experienced team of installers, we help our clients to comply with WHS legislation & the relevant Australian Standards, as well as providing advice & industry knowledge to guide them in maintaining their floors and installations.

---

Unparalleled products, easy maintenance, seamless, customised designs and our reliable warranty on it all. ***You have our guarantee.***

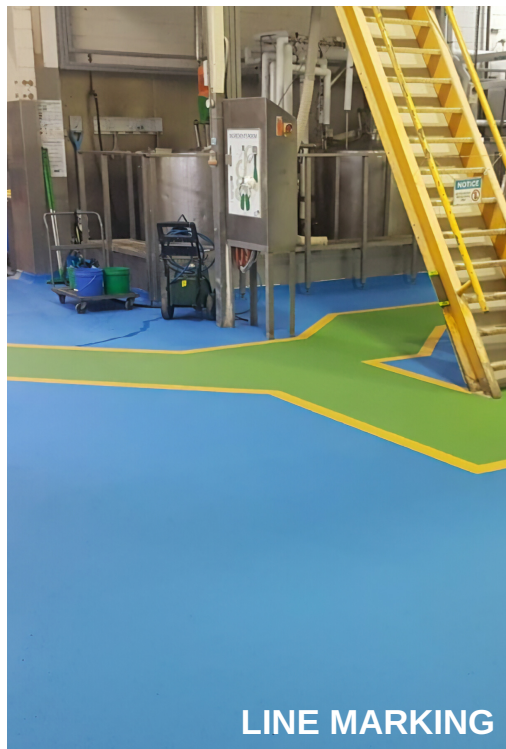

## MY CHEF CUISINE, WAGGA WAGGA.

*"We are very happy with the finished floor provided by Allied Finishes. We were particularly pleased with the thorough nature of Troy's work (Ops Manager) ensuring every square metre of the floor was at the very highest level"*

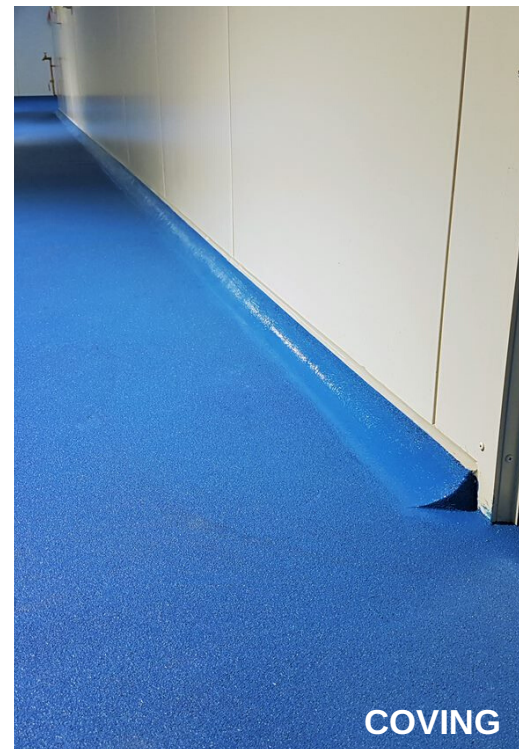

**Frank Coorey, My Chef Cuisine**

**DRAINAGE**

**LINE MARKING**

**COVING**

## ADDITIONAL FLOORING SERVICES

---

### **DRAINAGE**

Our stainless steel food grade drains are designed specifically for the food & beverage industry. From experience and extensive research, Allied Finishes have discovered the growing need of professionally installed stainless steel drainage to minimise production downtime.

### **LINE MARKING & FLOOR GRAPHICS**

Using the latest technology and highly trained teams, our line marking is neat & durable. Our service is fast, and compliant with the relevant regulations. In more recent years, clients have requested their logo to be embedded in the floor, which we have done with great success (Coprince, Casella, and others).

### **FOOD GRADE COVING**

Food grade coving is an essential part of the factory floor within the food & beverage industry. Good quality coving ensures liquids do not leak under walls, are structured skilfully in a curved shape to ensure there are no areas for bacteria to breed and are non-slip.

## LINE MARKING AT A LARGE COMMERCIAL BAKERY.

Located in Sydney, NSW. This project was completed for a large bread manufacturer that Allied Finishes has developed a strong relationship with over many years.

*"I highly recommend Allied Finishes. They offer excellent customer service, and the quality of their work is first class."*

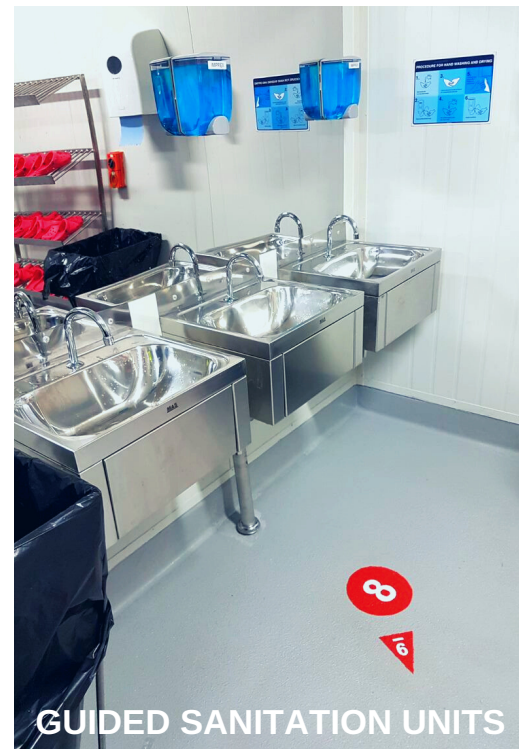

**Michael Slater, Casella Family Brands**

SWING-OVER BENCHES

TOUCH-FREE HAND WASH

GUIDED SANITATION UNITS

## SANITATION SERVICES

---

Allied Finishes has a wide range of hand wash stations, boot wash stations, sanitising machined, cloak racks, storage lockers etc. ready and customisable to suit your needs. Each washroom is entirely different. Some may require an entire fit-out, while others may only need the stand-alone boot & hand wash stations.

Our guided sanitation units ensure that every person that enters your facility will not miss a step in the sanitisation process.

The advantage in using Allied Finishes is that it's one capable team managing the entire fit-out, not 3 or 4 contractors you're unsure of. It takes the worry away from you managing the project.

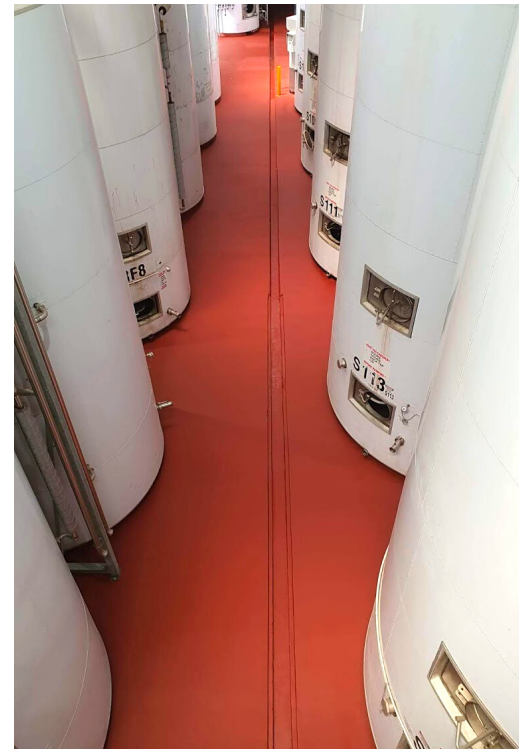

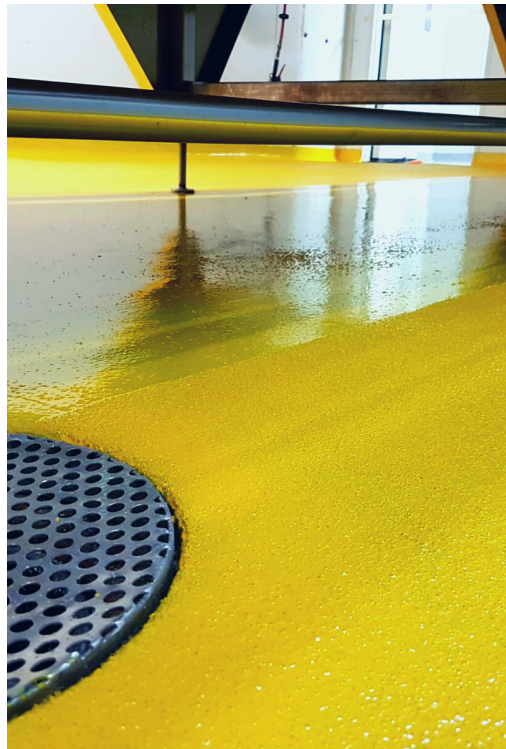

*Sanitisation Products:  
Allied Finishes own brand of 70% IPA  
Sanitiser available for the Food, Beverage  
& Pharmaceutical Industry. Talk to us for  
more information, **1800 033 444.***

## SANITISATION FIT-OUT, FOOD PROCESSOR.

Located in Sydney, NSW. This fit-out was a complete design to construction service Allied Finishes handled for one of Australia's largest food manufacturing facilities. This project involved multiple touch-free hand wash stations, boot & cloak racks and flooring with markers to indicate each step of the sanitisation process.

## TOUCH-UP PRODUCTS

### EasyCoat

EasyCoat is a self-priming, simple solution for any small touch-up jobs

### About our EasyCoat & SteriCoat Touch-Up Kits

- Water-based
- High flexibility
- Chemical, heat and solvent resistant
- Touch dry in 3 hours, and hard dry in 18 hours.

### SteriCoat

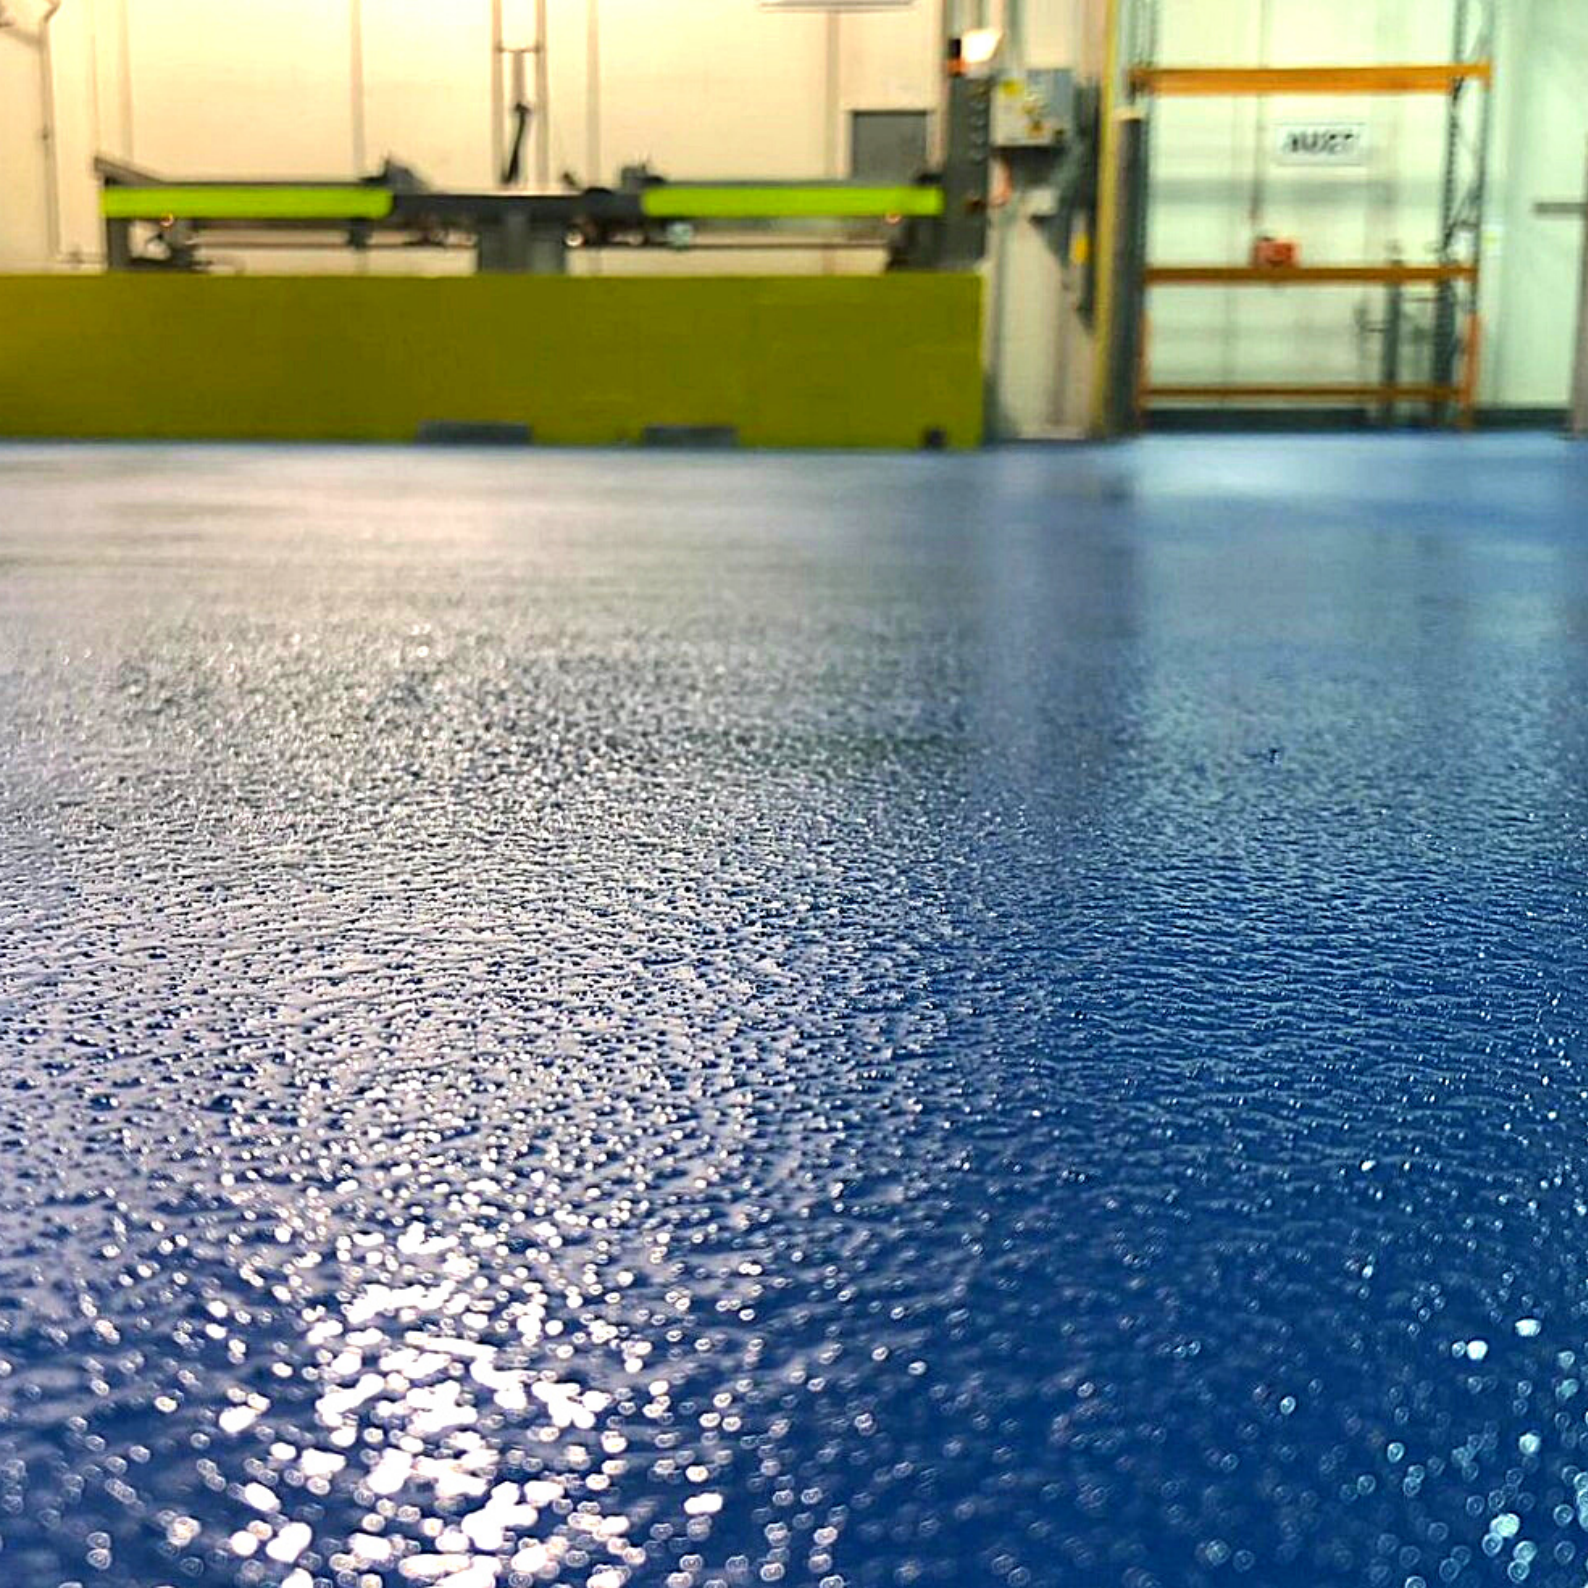

SteriCoat is similar to EasyCoat but has an antimicrobial agent to eliminate bacteria.

### **Your own touch-up kit:**

*After project completion, Allied Finishes will offer you touch-up kits in the exact colour your floor is, at a discounted rate. Contact us for more information.*

## LARGE FINISHED GOODS MANUFACTURER

Located in Sydney, NSW. This company has been working with Allied Finishes for many years to assist them with flooring installations, providing DIY touch-up kits, and other maintenance services. As a worldwide food manufacturer, their standards are very high, and Allied Finishes goes above and beyond their expectations.

## HIRE EQUIPMENT

---

Allied Finishes has a range of large grinders, angle grinders, shot blasters, jackhammers, commercial vacuums and other equipment to assist with DIY projects. So you can get the job done, when you like.

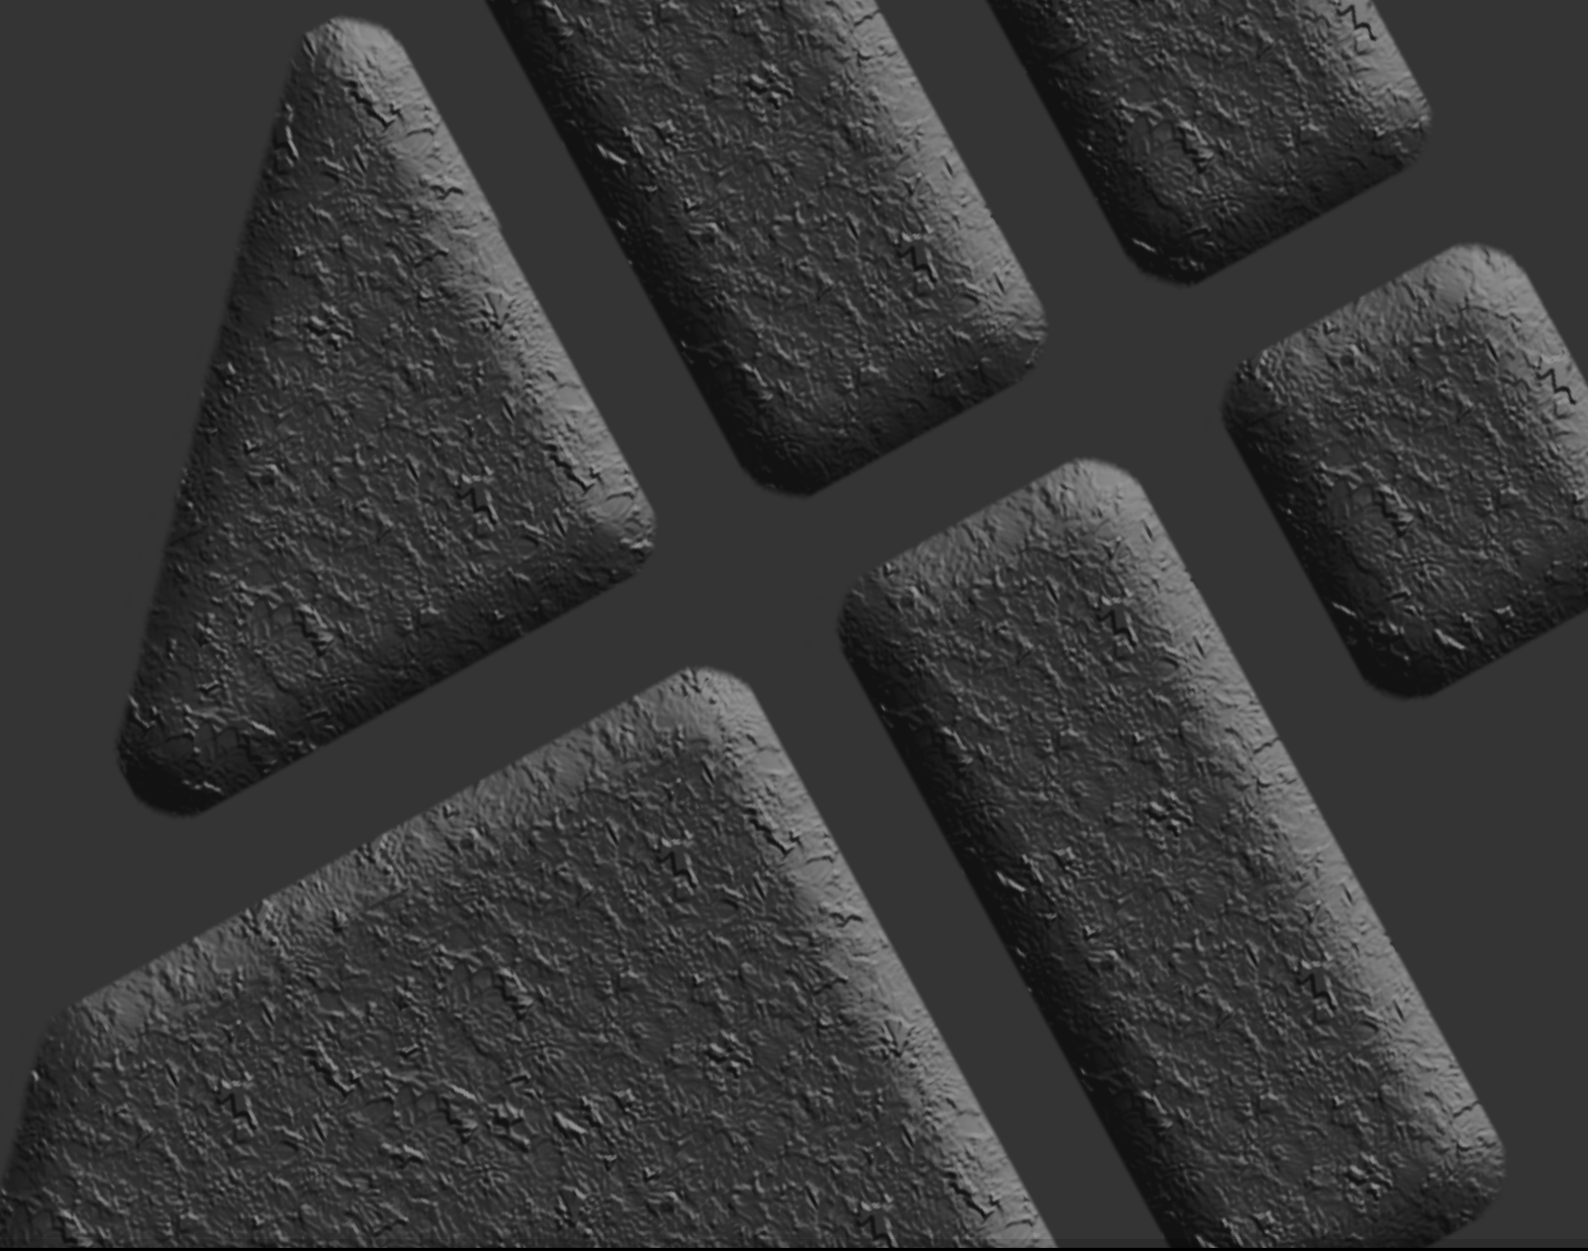

Call 1800 033 444 to book or email [helpdesk@alliedfinishes.com](mailto:helpdesk@alliedfinishes.com).
